Gaston B. Means Unable To Raise Bond For Release

Noted Figure Who Duped Mrs. McLean, Under $100,000 Bond

SWINDLED WOMAN HELPING LINDBERGH

Took $100,000 To Recover Child And Refuses To Give It Back

(International News Service)

WASHINGTON, May 6.—Unable to post bond of $100,000, Gaston B. Means, former department of justice agent, remained in jail today, charged with obtaining $100,000, posted by Mrs. E. B. McLean as Ransom money for the kidnapers of the Lindbergh baby.

In obtaining the money from the estranged wife of the Washington publisher, Means duped Capt. Emory Land of the Navy Department, the Rev. Francis J. Hurney, a Catholic priest, as well as representatives of the Lindbergh family, according to details related by attorneys for Mrs. McLean.

Money Not Returned

Means was arrested, after he failed to return the ransom money which, it is alleged, was paid him in old bills, on March 7, a few days after the Hopewell, N. J., kidnaping.

The former convict accepted his arrest with a philosophical shrug, and told reporters he wasn't surprised as he pleaded not guilty when arraigned before U. S. Commissioner Turnage.

Shortly after the famous kidnaping, attorneys said, Mrs. McLean hoping to aid the bereaved family,

Senate Committee Completes Work On New Revenue Bill

Measure Meets With Much Criticism As It Is Ready For Senate

Hull Declares He Will File Minority Report Against Bill

(International News Service)

By WILLIAM M. HUTCHINSON
International News Service Staff Correspondent

WASHINGTON, May 6—A new revenue bill, capable of balancing the budget with the aid of federal economies was completed by the Senate Finance Committee today only to be assailed by its own authors.

The bill carried the 1922 income tax rates, slightly boosted in the upper surtax brackets, drastic postal rate increases, tariffs on coal, oil, copper and lumber and a series of heavy exercises. An effort to impose a mild manufacturer's sales tax, as a substitute for the bitterly assailed income and excises, was defeated, just before the committee ended its rate-switching labor.

Opposed By Mills

Secretary of the treasury Mills went before the committee to express his views of the measure. He opposes it, because the committee virtually ignored the treasury's recommendations.

The bill was condemned on all sides. Its critics attacked it for a variety of reasons. The insurgents denonunced the heavy income tax-

Soviets Redouble Guards On Border

Believe Sino-Japanese Peace Agreement Means Increased Soviet Activity

(International News Service)

MOSCOW, May 6—The signing of the Sino-Japanese truce at Shanghai was interrupted today by the Soviet press as a forerunner of increased anti-Soviet activities along the Siberian border of Manchuria.

"Japan's hands, which have long been tied up at Shanghai, now are free" said one semi-official statement. "There is not the slightest doubt that activities along the Manchurian borders, at the gates of the Soviet union, will be redoubled within the next few days.

"The Shanghai peace thus is an important link in the chain of anti-Soviet provocations."

Appeal Made For Congress To Balance Budget As Great Need Of Country

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, May 6.—Prepared to appeal to the country, President Hoover today had pulled the "big stick" out of the bag with his stinging message assailing the Democratic house, indirectly criticizing the senate and denouncing foes of drastic economy.

The President's surprise message, delivered late yesterday, was accepted as notice he will use his veto power on bills which he believes will prevent a balanced budget or undermine confidence.

Partisan Warfare

Partisan warfare unrivaled in bitterness since the session began, broke loose as a result of Mr. Hoover's message. Democratic leaders in the house in particular resented the message as a campaign speech.

They retaliated with declarations that the President had been slow to seek economy, that his own sec-

New York Pier Destroyed By Flames Today

North River Pier 54, Of Cunard Liners, Destroyed By Raging Fire Today

SEVEN FIREMEN SUFFER INJURIES

Direct Effort Toward Saving Adjoining Piers, Flames Shoot 50 Feet

(International News Service)

NEW YORK, May 6—Pier 54, North River, berth of the giant Cunard Liners, was destroyed by fire today.

Apparatus from all parts of the city was summoned to battle the flames. Five alarms were turned in.

Dense clouds of black smoke billowed upward and spread like a pall over the lower west side.

The pier was supposedly fire proof, but it was the very fire-proofing that led to its ruin. The blaze was nourished on the creosote-soaked wooden underpinning and protected by the thick concrete flooring of the superstructure.

Thousands of dollars worth of cargo stacked on the pier was destroyed.

Seven Firemen Injured

Seven firemen were injured, but none seriously.

The fire was discovered in a pile of rubbish. An effort to extinguish it with the hand apparatus on the pier failed.

Fire alarms were then turned in. Soon the fireboat Thomas Willett and apparatus from various fire stations arrived on the scene.

Firemen and employes of the Consolidated Gas Company hammered away at the concrete flooring with pneumatic pavement breakers in a futile attempt to reach the source of the flames.

Will Move Liner

And as great clouds of smoke rolled out from beneath the pier the firemen virtually had to abandon their efforts to save it. They began concentrating their work on protecting the adjoining piers—53 and 56.

The Liner California was moored at pier 56 and preparations were made to tow her out into the water as a precautionary measure.

Traffic on the elevated highway was detoured for almost an hour during the height of the fire.

Windows Melted

By 9 a. m.—more than three hours after the fire was discovered—the flames were shooting fifty feet into the air and creeping inexorably along the shore pilings toward pier 53.

The terrific heat was melting windows on the adjacent piers.

New Effort To Make Contact In Kidnaping

By EDWARD B. LOCKETT
International News Service Staff Correspondent

NORFOLK, Va., May 6.—For the seventh time today negotiators were seeking recovery of the kidnaped Lindbergh baby planned a rendezvous at sea with the men they believe to be the kidnapers.

The sixth unsuccessful effort to contact the men with whom they are dealing ended late last night. The seventh was timed to start before noon.

Failure has visibly shaken the faith of the negotiators, but they continued their work undaunted. They will keep on until the last thread of hope is broken.

Captain Frank T. Lackmann skipper of the yacht Marcon, which the negotiators have been using for their trips to sea to meet the kidnapers, was as enthuiastic as ever, but the negotiators themselves appeared weary of their fruitless voyages.

There was no sign of John Hughes Curtis, chief of the negoiators, in Norfolk. The Marcon docked at the naval base about 8 p. m. and soon afterwards Lackmann was with his wife here. A call at the home of Curtis, where his wife is seriously ill, revealed no sign of the chief negotiators.

Mayor Forces Council Vote On Applicants For City Engineer

(Special To The News)

HOLLYWOOD, Cal., May 6.—Spring has been late arriving this year, but this morning on our front page she got here.

It was the old familiar figure of Citizen Calvin Coolidge wading in the creek. When that distinguished weather-mark takes his hip boots out of drydock and launches forth with rod and cigar into the very bowels of a spring freshet, America knows she can then shed her woolens and enjoy her depression in the open air.

The picture showed he had a little "perch" in his hand, and the same grin on his face that he wore on that memorable day in Washington when he, with due premeditation, and malice aforethought, slipped the custodianship of these whole United States into the innocent hands of Herbert Hoover.

You can't blame him for grinning, if he never caught a fish.

Yours,

Will Rogers.

Question Woman About Poisoning Of Her Husband

New York State Woman Alleged To Have Killed Husband Out Of Pity

(International News Service)

NEW YORK, May 6.—A poignant tragedy of worry and unemployment was told by police today while the district attorney's attaches in Queens questioned Mrs. Tiernan Baker, Wookhaven, Queens, accused of the "mercy killing" of her husband.

Detectives charged Mrs. Baker put roach poison into Baker's milk when she gave him breakfast. She told authorities she was heart-sick because her husband failed for two years to get work as a jewel cutter and that fear of starvation haunted them both.

Chemical tests will be made today on Baker's body to determine if he was poisoned.

Hugh S. Stewart, C. H. Milholland, K. C. Holm and E. C. Hulbert, engineers, nominated in order by Mayor Charles Mayne for the position of city engineer, were voted down by councilmen today when the body met in the city building. Mayor Mayne presented the motions after he had requested Councilman Treser to fill the chair, which Treser did.

"Stanley, please take the chair," the mayor said to Treser, adding "where you cannot talk so much." Treser arose, smiled and replied: "You have been doing that. Now I am going to talk." After Treser had been seated, Mayor Mayne addressed his colleagues.

Mayor Takes Floor

"I'm reading from the Act of Assembly, 1931," he informed colleagues. He read the law pertaining to the election of a city engineer. He referred to Section 1501, which Mayne read to the effect that "a city engineer shall be elected on the first day of May, 1932 and every fourth year thereafter, or as soon thereafter as practical." The law provided, according to the reading that he be a registered engineer.

"The first day of May has passed", the mayor declared. "There are applications from registered engineers. I do not know what you think is practical," he said to colleagues "but as we have applications from applicants you can qualify it is up to us to elect an engineer."

"We did elect an engineer," responded Councilman Genkinger.

"Who?" asked the Mayor.

"Mr. Hoskins," replied Councilman Genkinger.

"No," Mayne declared. He added the city solicitor had said the election had been illegal.

"Mr. Miller is still the city engineer," said Councilman Treser, head of the department.

"Yes, but he has nothing to do.

Mother's Day

(International News Service)

HARRISBURG, May 6—Governor Gifford Pinchot in a statement today paid tribute to motherhood and exhorted citizens of the commonwealth to join on Sunday in observing the day set aside to honor all mothers.

"None can repay, and few can overstate, our debt to our mothers," the governor said. "No man or woman can ever be thankful enough for the influence of a good mother—and mighty few have any other kind. Mothers are the cream of humanity. The sage who said 'an honest man is the nobles work of God' forgot to think of mothers."

Governor Pinchot declared that "gratitude even more than love should be the keynote on Mother's Day."

Assailant Of President Is Arrested After Being Saved From Mob

By WILLIAM PARKER
International News Service Staff Correspondent

PARIS, May 6.—Paul Doumer, Thirteenth President of the French Republic, was shot three times by a Russian emigre here this afternoon.

An apparently erroneous announcement was issued by the prefecture of police at 3:40 p. m., forty minutes after the shooting, that the president was dead.

But at 5 p. m., Dr. Gosset at the Beaujon hospital where Doumer had been carried, declared that the President's wounds were not as serious as had been first reported.

"We are operating at 5:30 p. m.," said Gosset. "I think after all the wounds are superficial. The bullet which penetrated his head behind the left ear did not touch the brain.

"The greatest danger is from blood poisoning and also because of the fact that the president is in a weakened condition, suffering from a bad cold."

Shot At Private Residence

President Doumer was shot down by Dr. Paul Jouguloff, a Russian, in the private residence of Colomon de Rothschild, which had been turned over to French War veterans for an exhibition of books written by survivors of the world war.

Jouguloff fired five shots. Three struck M. Doumer, another hit Claude Farrere, noted French author, and a fifth hit Paul Guichard, director of the Paris municipal police.

The distinguished company of literary men surrounding president Doumer at the time of the attempted assassination jumped upon Jouguloff, manhandling him severely before M. Guichard rescued him and had him rushed off to the police station.

HUNT MANIAC AS GIRL'S ASSAILANT

(International News Service)

TOLEDO, O., May 6.—Criminally assaulted and choked, the lifeless body of Miss Winifred Rafferty, 23-year-old dietician at Robinwood hospital here, was found today on the lawn of a residence near the hospital.

Police said the girl had been murdered, probably by a maniac. The girl's body was stripped of nearly all clothing.

Footprints and the torn turf of the lawn indicated that Miss Rafferty had put up a desperate battle against her assailant. Bruises about her throat led police to believe she had been strangled to death. Other marks, police said, indicated that she had been criminally attacked.

The Lucas county coroner was called to conduct an inquest.

THIRD RELIEF ALLOCATIONS SENT BY STATE

Talbot Relief Checks Mailed To 66 Counties

State Treasury Department Completes Mailing Of Third Payments Today

$1,982,778 IS BEING PASSED OUT

HARRISBURG, May 6.—Checks totaling $1,982,778, representing the third payment under the $10,000,000 Talbot act appropriation, were to be mailed to 66 counties today by the state treasury department.

The check for Lycoming county was being withheld pending calculation of the exact amount due that county.

February Payment.

Today's payment was to have been made in February under the terms of the law, but litigation delayed the disbursement. The allocations are based on a report for January which placed the state's total unemployment at 1,001,094.

Payments originally scheduled for March will be made soon and the checks prepared for forwarding today will be duplicated.

April and May payment totaling $3,000,000, the balance in the $10,000,000 appropriation, will be made on the basis of a new report of unemployment which is being prepared by the department of labor and industry and which will show unemployment conditions as of March 1.

MAYOR FORCES COUNCIL VOTE FOR ENGINEER

(Continued From Page One)

I want the city solicitor to say if one has been elected. If so, O. K. if not O. K." the mayor stated.

"I don't think one is elected," responded Councilman Treser. "Mr. Miller is a 'holdover.'"

"I'm ready to elect an engineer. The time is here. You have applications in your vest pocket. We want them on the table," said the Mayor to Councilman Treser, adding: "We will elect or reject."

"We'll ask the solicitor for an opinion," Treser replied.

Can Nominate

Solicitor Robert White addressed the Mayor, stating: "As to the meaning of the words (in the 1931 Act of Assembly), I could say that you, Mayor, can bring it to a head by nominating from the floor."

"I want the applications on the table," the mayor asserted.

"Did you have the application of Walter Reynolds in your possession when you nominated him for solicitor?" Treser inquired of the Mayor.

"Yes."

"Council did not have it," retorted Councilman Treser.

"I was afraid they would refer it to the dog catcher. We have nothing to do now but to elect an engineer."

"I nominate Hugh S. Stewart," said the Mayor.

"I'll second the motion to get it before the house," said Councilman Hoyland.

In reply to a query for remarks by 'Chairman' Treser, Councilman Genkinger said the election of Mr. Hoskins was held over until his status could be clarified by the state board of registration.

Mr. Genkinger said this was understood by council.

"The gentleman at the head of the department has been removed from the floor so the mayor can make recommendations the head of the department does not want to make," remarked Councilman D. O. Davies.

Votes Are Taken

The vote on the nomination of Stewart for city engineer was taken. All members of council voted negatively excepting Mayor Mayne.

The Mayor then nominated K. C. Holm.

Councilman Hoyland said he would second the motion to get it before the house.

"Why go through this farce?" inquired Councilman Davies.

"I'll put a motion that this matter be deferred until a future meeting."

"You cannot do that. I have a motion before the house," said Mayor Mayne. Acting Chairman Treser called for a vote on the Holm nomination.

The nomination was lost four to one. The Mayor voted affirmatively.

"I nominate Harvey Milholland," said Mayor Mayne.

The motion was seconded by Councilman Hoyland. It was lost three to two. Mayor Mayne and Councilman Hoyland voted 'Yes'. The other councilmen voted negatively.

"Now I nominate Mr. Hulbert," said the Mayor.

Councilman Hoyland seconded the motion. On the vote the mayor and Councilman Hoyland voted for Hulbert. The other three councilmen voted negatively and the motion was lost.

"Any further nominations?" the mayor inquired.

"No other written applications but there is Leslie Wilson," said Acting Chairman Treser.

"Now I think you have it in legal form," said the Mayor to Acting Chairman Treser and referring to a 'city engineer' said: "You might as well wait for him to go through school."

"No, we're not waiting for anyone to go through school," replied Treser who asked:

Any Police Recommendations

"Have you any recommendations to make in the police department?"

"No," the mayor replied.

"Maybe you are waiting for him to go through school. I promised my best friend last night I would be for the man you were putting through school," said Treser.

"You don't need to promise. I can get along without any help," the Mayor retorted.

"Well, I'm making it," Treser declared.

Council adjourned without any further discussion.

shooting, declaring he wished to put Doumer out of the way "because France is an ally of Red Russia."

Jouguloff pushed his way through the throng surrounding president Doumer and opened fire without warning.

The place was thrown into an uproar. Men rushed toward the assissin from all sides, but he continued firing, and had fired five shots before he was finally overpowered.

If it had not been for intervention of M. Guichard and the police, the assassin would have been lynched on the spot. As it was, he arrived at the station house bereft of all his clothing with the exception of his shirt and trousers and with a bandage covering a wound on his head.

Doumer, at the age of 74 was elected to the presidency of France in May of last year.

Two Others Wounded

Claude Farrere, noted French author who was with Doumer at the time, was also shot and wounded. He was struck by a single bullet.

Paul Guichard, director of the municipal police, was also shot once by the assassin.

"While the president of the Republic M. Paul Doumer, was surrounded by friends and soldiers, an individual fired five shots.

"Three struck the president, one struck M. Claude Farrere and another hit Paul Guichard, director of the municipal police, who disarmed the man.

"The assassin was identified as the Russian Doctor Paul Jouguloff." Doumer, the thirteen man to sit in the magnificent Elysee place was elected May 13, 1931 succeeding Gaston Doumergue.

communicated with the former "confidential agent of the German secret service." After a few days they declared, Means reported contact with the kidnapers.

Has Served Terms

Means served three years in the Federal Prison at Atlanta for conspiracy to violate the prohibition act. He was indicted and acquitted in the murder of Mrs. Maude A. King, widow of a Chicago Philanthropist. He figured prominently in the administration of Attorney General Harry M. Daugherty of the Harding administration, and is the author of the repudiated book, "The Strange Death of President Harding."

With this background, the publisher's wife called Means. According to Mrs. McLean, Means reported contacts with former fellow prisoners at Atlanta. Capt. Land and the Rev. Hurney were called in, while representatives of the Lindbergh family knew of the Means negotiations.

Details Explained

The money, from her personal funds, she said was paid to Means on March 7, in her capital home, with Father Hurney as a witness. Capt. Land had obtained the sanction of Col. Charles A. Lindbergh and Col. Henry Breckenridge, his personal attorney. There was no financial arrangement between the Lindbergh's and Mrs. McLean.

es in the lower brackets with the elimination of the 25 per cent earned income exemption. Senator Hull (D) of Tennessee, led another group which protested the inclusion of tariffs. Hull said he would file a minority report against it.

Minority Reports

Senator Reed (R) of Pennsylvania intimated he would file another minority report, assailing the heavy taxes on certain industries and the "soak the rich" policy adopted in the higher income and surtax brackets. Senator Bingham (R) of Connecticut, another committee member, intimated he might vote against the bill in its present form, because of its burdens on industry.

The normal income taxes start with a 4 per cent levy on the first $4000 and 8 percent tax on all income in excess of that. The exemptions were $1,000 for single persons, and $2,500 for married persons with incomes under $5,000, but only $2,000 if their incomes exceed $5,000. The surtaxes begin with one per cent on net income between $6,000 and $10,000, increasing one per cent on each succeeding $2,000 until they reach the upper brackets. There would be a 50 percent surtax on incomes between $200,000 and $300,000 with a maximum surtax of 55 percent on incomes in excess of $1,000,000.

Uses Harsh Words

In perhaps the harshest words he has used in addressing congress, the president observed a balanced budget is the chief need of the country and congress is slow providing it by increased taxation and economy.

The Democratic house he said has frightened the country by wrecking the economy program, passing roads and pension bills, passing the Goldsborough bill and threatening to embark the country on a wave of inflation.

CLUB MEMBERS VISIT LOCAL ROCK GARDEN

Mrs. Marcus Feuchtwanger proved a charming hostess Thursday afternoon when she received in her home on Laurel Boulevard, associates of the Garden Club for their regular meeting. This occasion, too, was in the form of a "welcome" event for Mrs. S. D. Pearson, a member who recently returned from a tour in Italy.

The usual routine of business was conducted and announcement was made that another lecture will be sponsored by the Shade Tree Commission to be held at the New Castle Senior High school on May 19. This group have asked the Garden Club members to assist on this date, as they did on a previous occasion.

The feature of the afternoon then came which was a surprise to everyone when members got into machines and drove to the home of Mr. and Mrs. Fred Rentz on Edison avenue where they viewed their rock garden, a beauty spot of New Castle that is much boasted of. Mrs. Rentz accompanied them on their tour and told of the different plants that were arranged, some specimens being found in no other garden in the city. This truly was a delightful treat planned especially by their hostess.

During the afternoon, excellent reports were heard, one on the school committee by Mrs. Howley, and one on the blind work given by Mrs. Feuchtwanger.

Plans were formulated for another "pilgrimage" to the home of Mrs. Brandt Miller who resides at Canfield, O., which will take place sometime in June, the exact date to be announced.

At a late hour refreshments were served by Mrs. Endress, with Louise Humphrey and Mrs. Camitoli as aides.

The honored couple received many lovely gifts, which will be used in their new home on Division street.

CONTEST DINNER BRILLIANT SUCCESS

The members of Mrs. R. C. Cline's team of the Baldwin Bible class of Highland United Presbyterian church were most gracious hostesses Thursday evening when they entertained Mrs. O. A. Rodgers' team as the result of a contest held recently.

As the guests arrived they were welcomed by the losing team and at 6:30, as Mrs. A. C. Allen played a lively march, each member of the losing team escorted a guest to the dining room, where long tables were arranged in the form of a B.

Corsages in pastel shades marked the places for sixty women, and a delicious menu was served, with Mrs. Lee Pyle and her aides as chefs, and Mrs. Thomas Boston and her aides serving.

Mrs. Josephine Kison acted as toastmaster and introduced the various pep songs, which were original verses appropriate to the event. Mrs. A. C. Allen was at the piano.

After the dessert had been served the hostesses excused themselves and as Mrs. F. L. Burton conducted a business meeting the entertainers prepared the stage for the minstrel show, which followed.

As the guests were shown to their places by Mrs. Lee Pyle and Mrs. T. C. Boston, ushers of the evening, the curtains parted and a minstrel show was presented, Mrs. Josephine Kison in the role of interlocutor. The black face comedians were Mrs. J. W. McCreary, Mrs. Daniel Maddocks, Mrs. C. J. Streib and Mrs. H. H. Halley, who opened the program with a song "Way Down Upon the Swaunee River"; Miss Minnie Davidson as Charlie Fussabout gave a splendid reading; Mrs. Halley as Dr. Howe I. Foolem, had a juggling act; Mrs. Roy E. Graham as Count De Votes, had an inspiring political speech, after which the minstrel "boys" sang Hello and gave a musical number on their various brass instruments.

The repartee between the interlocutor and the black face comedians kept the guests in an uproar throughout the performance and the original jibes at the various members of the winning team were received with much laughter. These were given by the end men, Mrs. Streib and Mrs. McCreary.

The success of the event was due to the careful planning of Mrs. Harold McCulloch and her aides.

Diet Didn't Do This!

HAPPY little girl, just bursting with pep, and she has never tasted a "tonic!"

Every child's stomach, liver, and bowels need stimulating at times, but give children something you know all about.

Follow the advice of that famous family physician who gave the world Syrup Pepsin. *Stimulate the body's vital organs.* Dr. Caldwell's prescription of pure pepsin, active senna, and fresh herbs is a mild stimulant that keeps the system from getting sluggish.

If your youngsters don't do well at school, don't play as hard or eat as well as other children do, begin this evening with Dr. Caldwell's Syrup Pepsin. This gentle stimulant will soon right things! The bowels will move with better regularity and thoroughness. There won't be so many sick spells or colds. You'll find it just as wonderful for adults, too, in larger spoonfuls!

Get some Syrup Pepsin; protect your household from those bilious days, frequent headaches, and that sluggish state of half-health that means the bowels need stimulating. Keep this preparation in the home to use instead of harsh cathartics that cause chronic constipation if taken too often. You can always get Dr. Caldwell's Syrup Pepsin at any drug store; they have it all ready in big bottles.

CALIFORNIA JOLTS "DEMS" OUTLOOK

OF THE three candidates who contested the Democratic primaries in California Speaker Garner gets the greatest kick out of the situation. He had the backing of the Hearst newspaper interests, of William G. McAdoo and the bulk of the Democratic State organization, although the chairman of the Executive Committee was supporting Roosevelt, as was National Committeeman Dockweiler. Democrats of less distinction represented Alfred E. Smith.

Had Roosevelt run away with the primary, polling a majority over both the other contestants, he might have claimed with considerable justification that his nomination was as good as in the bag. But he has failed. What comfort comes to Smith is not in the way of delegates favorable to himself, but in the fact that the "Stop Roosevelt" movement gain additional strength.

The large vote cast for Garner will encourage his devotees in Texas to keep his name before the convention as long as there is a chance of defeating Roosevelt.

One incident of the primaries is significant. Hoover was without opposition, hence a few ballots would have turned the trick. But it is evident that the Republicans of the State resent the cry that has been raised of the unpopularity of the President, and they gave his delegates more votes than the combined totals of his Democratic opponents.

CAPONE STARTS TERM

It is hard for gangland to believe, but it is true—Al Capone is in prison for a long term. Today he is simply another convict. That he will be for eleven years, minus such time off for good conduct as the rules of Atlanta permit.

The invincibility of the biggest of the big shots proves a dud. Armed guards and armored dwellings, skilled lawyers and a drag with the police and politicians—he had them all, but they all failed. One by one his vaunted defenses fell before the steady advance of the law.

Happily the process has deflated some of the gaudy traditions which made a shabby hero out of one who is merely a sly and cowardly gutter rat, says the Cleveland Plain Dealer, shrewd enough to make other rats do his will in capitalizing opportunities which prohibition plus civic corruption opened before him.

If he had been half as smart as he was reputed to be he would never have been cornered. A stupid attempt to cheat on his income tax returns was what tripped him. Here is no glittering master mind, but a heavy young man even dumber than he looks.

Scarface passes. The reign of the house of Capone is over. But the conditions which made this tawdry reign possible still exist. It would be silly to predict he will have no successors.

As long as there is profit in the rackets, thanks to the inertia and cowardice of the respectable citizens who tolerate them, there will be other underworld magnates.

RIGHTS OF PEDESTRIANS—MOTORISTS

Drivers of motor vehicles should take warning that, in damage suits brought by pedestrians struck while crossing the street at pedestrian crossings and on proper traffic signals, the courts invariably find against the motorist. Under these circumstances the pedestrian has a right-of-way the motorist cannot dispute with impunity.

Cases arise most frequently over disputes as to right of way when pedestrians who start on a correct signal are caught by a change in signal before they have reached the other curb. It is nothing more than common sense to say that they should be given time to clear the roadway before the vehicular traffic moves forward. If the absolute right of pedestrians to enter upon a crossing when they have the "green" were not sustained they would be almost without protection.

The courts have held that failure on the part of the driver to recognize the right of the pedestrian in such circumstances constitutes negligence which, in event of accident, is chargeable to him.

These inalienable rights of the pedestrian do not, however, warrant his proceeding on the "red," trespassing off his allotted crossings and loitering in traffic lanes. If the motorist must wait until the pedestrian lanes are clear, the man on foot ought to do as much for the motorist.

All Of Us

We Didn't Like the Waiter
We Were Wrong
We Had Chips on Our Shoulders

I hated a waiter.

I didn't like the way he looked at us, who sat at his table.

He was cold and slow, and I thought him indifferent. I was certain he was contemptuous of us—so I didn't like THAT and I didn't like HIM.

* * *

It happened long ago, and I was a soldier on leave from the front. I'd left the thunder of the guns and the cursing of men in war and gone for 10 precious days to Mentone, where the sun shone so clearly and there was no noise at all save the washing of the Mediterranean on the white shores.

This waiter worked at the hotel where the American soldiers stayed. The moment I saw him I knew he didn't like us. We were foreigners, Americans in France; common soldiers who had not money for tips. He was one of those snobby fellows, I knew, accustomed to waiting on rich and titled gentry. . . . He talked in a low voice, he moved smoothly around the table, he never smiled, except faintly. . . . I knew he had a grudge against us; we had one against him, too. What right did HE have to be waiting on table down here in the sunshine while we were cursing rats in dugouts and flopping on our bellies to let the shells go by? . . . What right did HE have to be so grouchy? The more we thought about it, the more we swaggered and scrowled. He could go to the devil!

* * *

Then someone told us about him. . . . He'd been in the war, and he'd been shot through the lungs. He was down here in this town where Robert Louis Stevenson had lived for some time, and for the same reason that Stevenson had come there—because his lungs were bad. He had a metal plate in his leg and a shell fragment buried in his shoulder. He moved slowly because he couldn't move any faster. He talked little because it hurt him to talk. He smiled so rarely because he was in pain most of the time. . . . We were quite wrong about him. He was a sweet, unboastful, sorrowful and decent human being who had only a few years to live—but wasn't talking about his troubles to strangers.

And after I heard that about him, I watched him very closely during our next meal—and it was a mystery to me how we had ever thought of that gentle human being as a grouchy, supercilious snob. . . . We must have had chips on our shoulders. . . . Because so often, the reason for our dislike is within ourselves and not within our enemy.

Just Folks

By EDGAR A. GUEST

PIONEERS

The pioneers of early days were men
of courage rare.
They battled long with hardship
and with suffering and care.
They felled the forests for their
wood, and plowed the land
for grain.
From day to day and week by week
they coped with hurt and
pain;
But looking back across the stretch
of life which we have known,
I'de say the grit of pioneers we,
too, have often shown.

We parents of this modern age have
lived as pioneers.
With mental suffering and pain
we've built these better years.
We pioneered the telephone. In
days when that began
On messages of love and haste the
owner of it ran.
His home became a bureau for his
neighborhood daily news,
And strangers came from blocks
away his telephone to use.

We pioneered the phonograph! The
first recorded speech
Brought to our tender eardrums
nothing sweeter than a
screech.
"The ravings of McCullough" which
commenced: "They say I'm
mad!"
Was a record filled with horror
which all gramophoners had.
We were a brave and patient race
until the ills were cured;
With all the pluck of pioneers great
tortures we endured.

We pioneered the motor car! Oft in
the evening gloom
Brave men were seen along the road
pushing their cars toward
home.
We motored into mire and mud!
Ours was the faith to go
When would the engine last the
day no living man could know.
So thinking of the horrors borne
and braved along the years,
There isn't any doubt at all that
we've been pioneers.

Majority Of Press Approves Refusal To Pardon Mooney

Repeated Investigations Of Case Under Authority Of California Governors Impress Citizens With Spirit Of Fairness

Although acknowledging that there will be some dissatisfaction with the verdict and that the case is probably not closed, there seems to be a disposition on the part of the press of the country to accept the wisdom and sincerity of Governor Rolph of California in refusing to pardon Tom Mooney.

"The decision of Governor Rolph denying Mooney's application for a pardon is unquestionably in accord with the opinion of the intelligent, fair-minded public," says the SAN JOSE MERCURY-HERALD, which contends that, "while the people of California have the real background of the Mooney case, the outside world has the propaganda background." The OAKLAND TRIBUNE has this to say: "The governor's belief that commutation, under the circumstances, is impossible, and Mooney's insistence that he cannot accept a parole, and will be content with nothing but a full pardon, are complications which make impossible any compromise. With the records before him and faced with full pardon or the denial of the same, the governor has added his word to that of the supreme court of California and his predecessors in office." As the BOISE IDAHO STATESMAN tersely phrases it: "Governor Rolph thinks Mooney is guilty and must be commended for his courage in acting accordingly."

Analyzing the question, the OSHKOSH DAILY NORTHWESTERN says: "It is true that a certain amount of perjured evidence helped convict Mooney. That has been admitted, at any rate. Yet the Mooney sympathizers, with all the flood of propaganda in his behalf, have failed to introduce any new evidence sufficient to sway four different governors and the supreme court of California." As the COLUMBUS OHIO STATE JOURNAL puts it: "Four governors, four investigating committees, the supreme court and seven members of the U. S. supreme court, all of whom have unanimously agreed, certainly cannot all be wrong."

In the opinion of the YAKIMA DAILY REPUBLIC: "The governor is to be commended for having the courage to stand fast. No convict in San Quentin has a clearer title to his sentence than Tom Mooney." The OKLAHOMA CITY TIMES, however, remarks: "After reading reams about the Mooney case, there remains an element of doubt about his guilt or innocence, but it is not fair to assume that those who have studied it long wish to punish an innocent man." And the advice of The Daily Oklahoman is for "all who take any part whatsoever in this controversy to fortify themselves with the facts before they either demand the release of the prisoner or his incarceration."

That the present decision will not be considered a final judgment is the opinion of several papers. "Apparently the state of California and the nation have not heard the last of the Mooney case," says the CONNELLSVILLE DAILY COURIER. "Perjury is the worst crime on the calendar," according to the FORT WORTH STAR-TELEGRAM, which goes on to say: "Perjury permeates the Mooney trial and imprisonment. Truth, under such circumstances, when 'crush't to earth' has its most difficult task of rising again. In this instance it probably never will arise to the point of recognition."

Although it appears obvious "that at the time of the trial Mooney was an undesirable citizen with a bad record," says the OMAHA WORLD HERALD, "that fact will never reconcile men and women who love justice to his punishment for a crime of which, in their own opinion he is innocent, and for which he was convicted on perjured testimony." On the other hand, the BOSTON EVENING TRANSCRIPT remarks: "Men who have gone carefully over the record have expressed themselves as convinced that the evidence for conviction was sufficient without that of the two witnesses who were discredited. Had there appeared a reasonable doubt of the man's guilt, it is hardly conceivable that it would not have been brought out to the satisfaction of court or governor at some stage of these successive appeals for clemency."

Pointing out that "long before this Mooney could have had his freedom if he were willing to apply for a parole," the SCRANTON TIMES comments: "Tom, however, insists on his innocence and declares his purpose of spending his life 'inside' unless given an outright pardon. Application for a parole, he contends, would be equivalent to an admission of guilt." The RUTLAND DAILY HERALD affirms that "In case of doubt, naturally the cautious executive declines to go back of the record." So also the LEXINGTON LEADER: "It is impossible to go behind the case as it stands."

As to Tom Mooney, himself, as a prisoner, the LINCOLN STATE JOURNAL describes him as "particularly disagreeable and ill tempered," and notes that "his comments on hearing the governor's decision revealed a bitter hatred against the existing system in this country that will not aid in securing his release at any future time." It is the frank opinion of the NEW YORK SUN that "Mooney himself has fared badly at the hands of his friends. If they are refrained from their agitation he might by good conduct soon be released as many life prisoners are," this paper suggests, as it records that "he has fallen in with the efforts to dramatize him." Along these same lines speaks the ROANOKE WORLD NEWS, saying: "Apparently Mooney is to be left in prison partly because a considerable number of people in California regard him as a bad actor, who is better locked up; and partly because of the extravagant assertions and injudicious actions of those who have volunteered as his defenders. Neither ground seems sufficient." The World-News further asserts: "Unless California is prepared to defend the sentence on the ground of a legal conviction beyond a reasonable doubt, it would do far better to turn its prisoner loose. In fact, it should have done so years ago."

The World AND THE Mud Puddles

FINE—BUT—

Golf balls are lost by the players of golf, by the thousands and tens of thousands. There have been many suggestions as to how to eliminate this loss and J. E. Priddy, a Girard, California, chemist, after losing dozens of golf balls in the "rough," tried some experiments suggested by his chemical knowledge.

He knew that certain insects could be attracted by certain odors. So he saturated his golf balls with a certain solution of chemicals designed to attract white butterflies, which are numerous about the course. Now, when he loses a golf ball, he sits down and watches where the butterflies congregate.

But sitting down and watching butterflies will not work on a congested golf course any Saturday, Sunday or Holiday. Just imagine the "Fores" being bellowed at the "watcher."

GOOD JUDGMENT

Do you frequently comment adversely about another man's judgment?

In reaching your conclusions do you not base them on your own ideas as if they were superior, of course?

Yet have you not found that often when you have expressed your opinion among those whom you consider your mental equals that the majority oppose your stand?

This being true, where do you stand as to good judgment?

Certainly not popular in your conceptions of the right or the wrong course as a general thing, and that means something.

Opinionated arrogance that will not be convinced because it does not wish to be changed, is not the part of wisdom.

You think you are being strong and showing your originality to be able to express positive ideas for or against certain things.

It might be better for you to find out what others think on the same subject and weigh these opinions before expressing your own so pompously.

Before you question the judgment of another, try to get his point of view and give it unbiased consideration.

Have Roles In Senior Play

Mary Louse Chip Jim Sotus

"Take My Advice" is the appropriate title of the comedy to be presented soon by the June graduates of the senior high school. Their advice in this instance will prove astonishingly different from the type graduates are supposed to give to an eagerly waiting world. It is guaranteed to be flavored with humor, punctuated with laughter, and sweetened with youth.

Mary Louise Chip, daughter of Mr. and Mrs. George Chip of Phillips Place, makes her first appearance on the high school stage in the matronly role of mother to a very modern son and daughter. As Mrs. Weaver she has some thrilling moments, and so does the audience, while she acts on some advice that involves the two young people.

James Sotus, Jr., plays opposite Miss Chip in the part of Joseph Weaver. Young Sotus is well known to the high school crowd for his activities in football, his interest in the dramatics classes, and for his special hobby of studio painting. As a middle-aged business man in the senior play, James will give a good account of his previous experience in various student stage productions. His appearance again behind the high school footlights will undoubtedly be given a hearty welcome.

Mercy Hospital Address Physicians

Accident Case Procedure Told County Doctors; Plan Picnic Here

Hospital procedure where victims of automobile crashes, mine explosions and other accidents suffer head injuries, were scientifically described to the Lawrence County Medical society last night, meeting in the Y. M. C. A., by two Pittsburgh doctors.

The speakers, Dr. Grover C. Weil, member of the Mercey hospital staff there, and his assistant, Dr. J. P. Henry, explained Mercy's medical treatment in accident cases.

Dr. Henry, the first to speak was introduced by his former college-mate, Dr. David L. Perry, local physician. Dr. Weil was introduced by the society's president, Dr. John Foster.

During the business meeting which preceded the program part, the doctors elected Dr. Rosella Popp to membership. Plans were also launched for a joint picnic of doctors and their wives at the Everglad dairy farm of Dr. Frederick Taylor, near Pulaski, to be held sometime next month.

Files Suit Against Street Railway Co.

Nick Rainey Asks $5,330.75 For Injuries Sustained In Accident

Nick Rainey has filed a suit at the prothonotary's office against the New Castle Electric Street Railway Company, in which he asks for $5,330.75 damages as the result of injuries sustained on a Highland Avenue car. Rainey, with his wife, boarded a car at Edgewood avenue, intending to go to Mahoningtown.

Mrs. Rainey entered first, Rainey following. When he paid his fare, he asked for transfers to Mahoningtown line. While the conductor was making them out, the car suddenly started, throwing Rainey against a seat, and to the floor.

Rainey claims that his back was injured and that as a result he was off work for thirteen weeks and has not yet fully recovered from the accident.

CRUELTY CHARGED IN DIVORCE CASE

Victor Kiovala has filed an application at the prothonotary's office for a divorce from his wife, Katri Kiovala, on the grounds of cruel and barbarous treatment. The couple were married in September, 1918, and lived together until March, 1932.

So a tax on stock transfers might close the exchange. Well, well, there must be some good in taxes, after all.

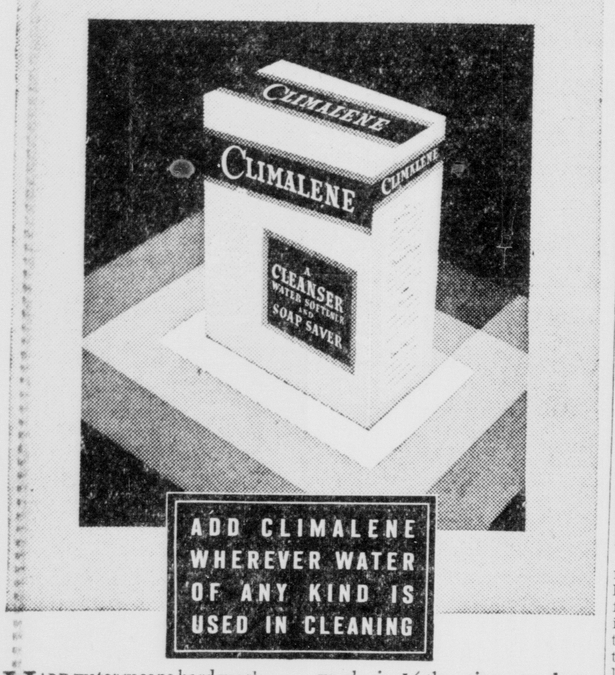
YOUR SOAP IS GOING TO *waste*

Waste . .

DON'T LET IT



HARD water means hard work. It's the hardness . . . the mineral salts . . . in hard water that *wastes* soap, because the soap cannot dissolve. *Stop this waste!* Add a teaspoon or two of Climalene to your washing water. That's all.

How It Works

Climalene cuts *grease* and *softens* the water instantly. Thus, only ¼ the soap is needed when you use Climalene. Then, it gently dissolves food stains, grease and dirt on dishes and in clothes. Thus you do your work in ⅓ the time or less.

It takes away that *grease* scum that is so annoying in dishwater. Colored clothes come from the wash far cleaner and fresher without "fade" or "streaks", white clothes—whiter than ever before. It leaves the hands soft and smooth.

Get Climalene today from your grocer. Use it wherever you use water for cleaning, in the *kitchen, laundry and bathroom.* He has it in the bright, shiny, blue box, 12 ounces for 10c or 2 pounds for 25c. The Climalene Co., Canton, Ohio.

Opposition To Special Session Gaining Ground

Scant Reason For Another Meeting Of Legislature, It Is Declared

REPORT PINCHOT PLANNING CALL

By WILLIAM B. BROWN
International News Service Staff Correspondent

HARRISBURG, May 6.—Although those favoring another special session of the legislature continue even to fix the date on which it will be called, forces opposing the proposal apparently have gathered strength since the recent primary.

In both Philadelphia and Pittsburgh a number of professional welfare workers are demanding another session before the money appropriated by the Talbot Act for unemployment relief is exhausted.

To the former demand that it be called for unemployment aid has been added the set phrase, "rehabilitation of business." How the two will go together, especially how business may be rehabilitated by a legislature whose sole function is to levy taxes and spend public funds, has not been explained.

Since Gov. Gifford Pinchot admitted several weeks ago that he has had no request for a special session from any "responsible civic authority" he has not publicly discussed the question. Even the demand of the welfare workers seems to have lessened since Attorney General William A. Schnader brought to light the fact that at least one administrator of funds for the needy was getting a larger salary than cabinet officers.

In the continuing discussion of a session to give additional aid to those without jobs, the difficulty of raising more funds remains the only important problem and one that ends always at a blank wall. The majority of the members of the legislature admitted at the last special session that no business of any kind could stand additional taxation.

One suggestion which will not down is that the legislature pass an act which would permit baseball games and moving pictures on Sunday, a special and heavy tax to be levied on that day with the entire revenue from this source to go toward unemployment relief. As he favors the use of public funds for the maintenance of anyone who asks for them and opposes Sunday sports, Governor Pinchot would be placed in an uncomfortable position by such a move.

With no chance of controlling either house of the legislature, and with more than a score of "lame ducks" sitting, such a move might develop quickly if the executive summoned a session.

When all other discussions fail the backers of the movement seem to agree that from their viewpoint an additional tax on gasoline is the "white hope" of getting legislative approval. Gasoline has advanced four cents a gallon in price since the assembly refused to approve such a measure at the last special session but if the big legislative delegations from Philadelphia and Pittsburgh can be held in line it is believed such a measure might get through another session.

Beware Of Clouds When In Bathing

Fleecy Ones Merely Focus Sun's Rays On Swimmer's Back

(International News Service)

PITTSBURGH, May 6.—Grandmother's time-old admonition to "Beware of sunburn on partly cloudy days" has been accounted for by the Mellon Institute of Industrial Research while conducting an investigation into air pollution.

The clouds, which swimmers believe shield them from the sun's rays, in reality act as a sun-glass, focusing the rays on the swimmer's body, according to the annual report of Dr. E. R. Weidlein, director of the institute.

As explained in the report, "there are present clouds so formed and so spaced that they Reflect some of the Sun's rays which ordinarily would have gone off in other directions than to the spot where the direct radiation is falling, thus making it possible at that particular spot to have stronger sunlight than would have been the case had the day been entirely clear."

Old Lithograph Depicts Early Westminster Days

(Special To The News)

NEW WILMINGTON, May 6—A unique lithograph of the 1860-1867 period, donated to Westminster College by Thomas R. Jones of New Wilmington, has created considerable comment on the college campus.

The picture, done in colors, shows Westminster's campus, as the artist saw it, in the early days. A main college building, very much like Old Main, destroyed in 1927, and two smaller buildings, said to have been a hall of language and a preparatory department, are on the campus.

Homes on Market street, a water fountain on the campus, student playing a "whirligig" merry-go-round, stage coaches dashing by, all add interest to the view.

While the perspective and proportions, especially those showing Furnace hill near the campus, are a bit askew, the picture, it is claimed, is a fairly good representation of the campus layout at the time.

The lithograph is framed and is now in the personnel office of the college. Other old-time pictures of the campus and photos of al Westminster presidents will, it is hoped, be added to this historical collection.

Boys Goes After Chicken Dinner

Owner Intercepts Him Making Off With Fat Hen

(International News Service)

PITSBURGH, May 6—The depression was interpreted as a lack of chicken dinners by a six year old Homestead boy.

In an effort to remedy the depression temporarily, the boy, playing truant from school, singled out a fat hen in a neighbor's chicken yard and with it clasped tightly in his arms started on a direct bee-line toward home.

The owner, attracted by the commotion created by the struggling hen, gave chase and retrieved it.

At the police station the boy explained the situation: "Daddy ain't got no work for a long time. We ain't had no chicken for dinner for a long, long time."

The long arm of the law turned the boy over to the still longer arm of the father, who intimated that a "woodshed finale" would be enacted.

MRS. BOWDEN TELLS REASONS FOR YOUTH

She Has Thought Out Her System Of Living To Retain Beauty

"I cannot understand how Mrs. Bowden keeps her good looks. Why, that woman is a grandmother, and has worked hard all her life, yet two years ago she actually seemed to get young again. Look at her now. Her walk is as springy as a young girl's; she has a beautiful complexion, and I declare I don't see how she gets through all she has to do and still has time and energy to join us in our meetings and the work we do," said a woman to her friend at a recent meeting of her club.

This friend determined to find out, and she asked Mrs. Bowden what kept her so well. The answer was so valuable to women readers that it is printed in full for their benefit. Said Mrs. Bowden, Dayton, Ohio: "About two years ago I realized my age and activities were getting to be burden. I did not feel up to them as I used to. So I just sat down and tried to think it out and see why I was no longer so active. Like a lot of other women, I had not been any too careful of my health. So I began to analyze myself. I asked myself first what made people grow old. The only answer I could find was that the body was not renewing itself fast enough. When muscles are used, a part of them are worn out. If this waste matter stays in the body, all the processes are slowed up, and we begin to grow old.

"On the contrary, if the wastes are all properly removed one could remain young and active to the end. So I checked up on how to remove the wastes from the body. First, the skin does a lot of this. So the skin must be kept clean. Second, the kidneys are Nature's great filter. As long as they work well and are not overworked, the blood will be kept pure. Third, the liver takes out some of the waste products from the blood. Fourth, the matter in the lower bowels is all waste, and must be got rid of promptly and thoroughly. From this checking up I applied the results to myself. First I found I was neglecting Nature's calls—did not respond as promptly as I should. Therefore my bowels were irregular and uncertain. That made more work for my kidneys than they could do. Also it slowed up my liver. Thus my blood was becoming impure because it retained the wastes of my body. I grew tired on little exertion, and my stomach did not work just right. So I soon realized the first thing, if I was to stay young and well, was to keep my bowels in order. Foolishly, I tried strong physics. They worked, but the reaction from them was bad, and I had to take them more frequently and in larger doses. I then saw that I must do something else.

"About this time I heard of a new medicine, made from herbs from different parts of the world, that was said to overcome constipation, energize the liver and help the kidneys. I tried it, and before I had taken all the first bottle of World's Tonic I knew I was on the right track. My bowels became regular, my liver worked fine, my stomach caused no trouble, and my kidneys were purifying the blood. After three bottles I knew everything was in order, and I felt as young as ever. Since then, by the use of this good medicine as I have need for it, my system is kept in perfect order, my blood is pure and rich, and I have ample strength and energy. These blessings keep me happy all the time. In other words, I keep young through the benefits of World's Tonic, a boon to any woman." World's Tonic can be had of Eckerd's, McKee's, Paisley's, Smith's or of any other first class drug store. (B-86)

Memory Of Mr. Jameson Will Be Given Tribute At State Convention

Memorial Placque To Be Presented To Hospital During Sessions

Committees Arranging For Entertainment Of Delegates To Local Gathering

This year's convention of the Pennsylvania Motor Federation, the 25th, to be held in New Castle May 18-19-20, will be featured by a service that will find a sympathetic response in the hearts of New Castle citizens. During the course of the convention, Thomas Henry, national president of the American Automobile Association will present a memorial placque to the Jameson Memorial hospital, in memory of the late David Jameson.

During his lifetime Mr. Jameson was an ardent advocate of good roads and organized motor clubs. His work in this respect was recognized by the American Automobile Association and during the years of 1918-19-20 he was national president of the organization, and would probably have continued as such but for the fact that he refused to take the office again.

Tribute To Worth

The placque which is to be presented to the Jameson Memorial hospital will be a tribute to the worth of a truly outstanding man. To the citizens of New Castle it will have a deeper meaning for it will be a recognition from a great organization of the worth of a man whose name and deeds are enshrined in the hearts of New Castle people.

The bringing of the convention to New Castle this year is in itself a tribute to the memory of Mr. Jameson. Not only will it be the Silver Jubilee convention but it will be in the nature of a memorial convention also. State President S. Edward Gable of Lancaster and his staff will be here as will many of the national officers.

A meeting of the Ladies' Entertainment Committee was held Wednesday afternoon in the lounge of the Castleton Hotel with Miss Emilie Salomon, chairman in charge. Plans were made for the entertainment of the wives of the delegates of the 88 clubs that will be represented here in the convention.

A meeting of the Men's Entertainment Committee was held last night at which time plans for the entertainment of the delegates and male members were made.

B. N. Hanlon, manager of the New Castle Motor Club is in charge of the local arrangements for the convention and stated today that the indications were that the convention would be a success. Reservations are being made at the Castleton by delegates and the hotel will probably be sold out by the end of this week.

LOOKING BACK
IN NEW CASTLE

George B. Gibson will be remembered as a former public official, who served the people of the city and Lawrence county in several offices with marked ability and to the satisfaction of the people. Mr. Gibson was born August 18, 1833 in what was then Mercer county but is now a part of Lawrence county. He came from one of the oldest families in this district. He attended the public schools and obtained an excellent education. He was a Democrat and was one of the prominent members of that party in this district. The first important office he held was that of county auditor, to which position he was elected in November 1875. He served the full term of three years and was re-elected in 1883. In November 1884, he was elected as the minority member of the board of county commissioners. He served for seven years as chairman of the Democratic County Committee. He was appointed postmaster of this city in April 20, 1893. His endorsements for the position were all of the best. During his term as postmaster, he instituted a number of changes, which were for the benefit of the postal service in the community. His term as postmaster was a decided success in every way, owing to the fact that he proved a careful, painstaking official.

Plans Completed For Spring Rally Christian Endeavor

Dr. Robert Galbreath, President Westminster College, Will Make Address

The annual spring rally of the Lawrence County Christian Endeavor Union will be an event of Thursday, May 12 at 8:15 p. m. D. S. T. in the Reformed Presbyterian church, corner of Oak and Pine streets. Dr. Robert Galbreath, president of Westminster College, has consented to give the convention address and those attending are assured of a worthwhile message.

The rally is designated as "President's Night," in honor of Harry Wilson, who has so efficiently directed the affairs of the County Union for the past three or four years. Every society in the county is expecting to send a large delegation.

The committee has prepared a splendid program for the occasion. No supper will be served and no charge will be made for the refreshments to be served.

Contest for the prize shield promises to be interesting and quite spirited. Each of the societies will have as many present as possible in competition for the honor of winning the championship in attendance.

PUBLIC SCHOOL CHORUSES PRESENT MUSIC FESTIVAL

Pay Tribute To Geo. Washington

Immense Crowd Attends Program At Junior High School

BOYS AND GIRLS WRITE NUMBERS

Miss Gladys Rich, Supervisor Of Music, Directs Program

Tribute was paid to George Washington in a musical way Thursday evening, May 5, when the pupils of the public schools of New Castle presented a choral program in the George Washington junior high school auditorium. The program came as a part of Music Week and as a unit in the nation's programs of bicentennial celebrations.

As a piece of public school music endeavor the festival of Thursday night was most creditable. When it is remembered that many of the songs presented were written by the youngsters themselves, the quality of the program becomes more apparent. The whole program demonstrated what a group of earnest teachers can do with a group of willing boys and girls.

Three Groups.

The festival was grouped into three general divisions. In the first group were the very small boys and girls, with some choruses from the fifth and sixth grades. In the second group were the songs written by the children, along with other numbers.

Those numbers written by the boys and girls themselves follow:

"To Washington"—Children of grade 6-B, Rose avenue school.

"The Champion"—Words by Susie M. Best, music by children of grade 5-A, West Side.

"Washington"—Words by Mary Wingate, music by children of grade 6-B, Highland avenue school.

"Father of Our Land"—By children of grades 6-A and 6-B, Thaddeus Stevens.

"Our Country's Commander"—By children of grade 6-A, Oak street.

"Ode to Washington"—By children of grade 6-A, Arthur McGill school.

Senior Choruses.

The third group contained the choruses of the junior and senior high schools, with Miss Gladys Rich directing. Miss Rich, who is the supervisor of music for the public schools of New Castle was responsible for the general supervision of the choral work, but each school had its own director.

Before the last number was presented, Dr. C. C. Green, superintendent of school, addressed the crowd. He spoke of the fitness of the program during this bicentennial year, and lauded the work of Miss Rich and the music directors of the schools in preparing a program of such quality.

The auditorium was not large enough to hold the crowd. Every seat was taken, all the standing room was gone and many were unable to get in. It was an evening of good music, a demonstration of what the boys and girls of the public schools can do, and a tangible example of what the music teachers of the schools can do.

Erlanger Estate Is But $124.20

Once Fabulous Estate Of Late Theatrical Man Has Dwindled

(International News Service)

NEW YORK, May 6—Reputedly worth up to $100,000,000 the estate of Abraham L. Erlanger, theatrical producer, was shown Thursday by an interim accounting filed in surrogate's court to have a cash value of $124.20.

Thus, if Charlotte Fixel, who sued to establish herself as Erlanger's common law wife, wins her suit, her dower interests will be $41.40, it was estimated.

There are uncollected debts owing the estate totaling $1,270,252.99, but some of these loans were regarded as uncollectable by Saul J. Barron, temporary administrator.

The gross estate was given as $2,223,479.51. After deducting payments to creditors, expenses and the uncollected debts, there were left $35,124.20 of which $35,000 is held in escrow by the Bankers' Trust Company for the internal revenue department.

Claims of more than $7,000,000 were made against the estate Barron said, of which he disallowed nearly $1,000,000. The rest have not yet been decided.

The claims included those on a lease for theatres in Boston and Chicago.

Laboratory discoveries prove value of

Kellogg's ALL-BRAN

The gentle, natural way to overcome common

CONSTIPATION

Here's why ALL-BRAN belongs on your table

IN THE past few months, many new scientific findings indicate that ALL-BRAN is a valuable addition to the daily diet. These laboratory investigations show that ALL-BRAN is an important source of two things needed to overcome constipation. "Bulk" to exercise the intestines. Vitamin B to tone the intestinal tract. (You will be interested in reading some of the results of these tests in the panel on the right.)

"Bulk" and vitamin B will help protect you from constipation and its effects—the headaches, the loss of energy, the poor appetite, the sleeplessness, the backaches, the wrinkles that so frequently result.

Now, in Kellogg's ALL-BRAN, you have both "bulk" and vitamin B in one delicious cereal. The "bulk" in ALL-BRAN is much like that in lettuce. Within the body, it forms a soft mass, which gently clears the intestines of wastes.

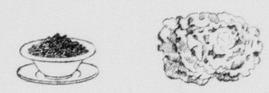
Moreover, ALL-BRAN furnishes iron for the blood. Tests prove that this famous health-cereal provides twice as much assimilable iron as an equal amount by weight of beef liver.

Isn't it much pleasanter to enjoy this appetizing cereal than to risk taking pills and drugs—so often harmful and habit-forming?

Try two tablespoonfuls daily—usually sufficient to overcome most types of constipation. If you suffer from a severe intestinal trouble, we suggest you consult your physician.

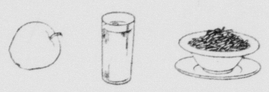
Special cooking and flavoring processes make ALL-BRAN particularly healthful. Tempting recipes on the red-and-green package. Made by Kellogg in Battle Creek.

Here are some of the results of recent laboratory investigations of bran



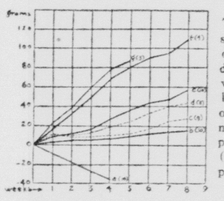
The Bulk in Bran

Laboratory tests show the "bulk" in bran is much like that in leafy vegetables. It may be eaten by most persons who can eat these vegetables.



Vitamin B in Bran

One ounce of Kellogg's ALL-BRAN contains 45 vitamin B units, as much as that in one very large apple or 5 ounces of orange juice.



This chart* shows the effects of daily additions to the vitamin B-free basal diet of laboratory rats: (a) none, (b) 0.6 gm. prepared bran, (f) 1.6 gm. prepared bran.

Iron in Bran

Tests show bran provides twice as much blood-building iron as an equal amount by weight of beef liver.

Need Shown For Wise Spending In Public Work

Lehigh Portland Cement Company Official Warns Against Unwise Economy

CONSTRUCTION DOES NOT CREATE PRODUCTS

"Wise spending, not ruthless and hysterical slashing of all public expenditures, is essential if the country is to maintain a steady march upward from depression," according to Robert Long of the Lehigh Portland Cement Co.

"Curtailment of all forms of public construction, such as is advocated in some quarters, would greatly decrease both employment and buying power and would retard our economic recovery considerably. Highway work alone" Mr. Long pointed out, "resulted in employment for fully three million men, directly or indirectly, last year.

"In restoring buying power, construction is especially important," continued Mr. Long, "because it is one of the few major activities which creates a wage fund without at the same time creating more goods to be purchased. In other words, when a manufacturer increases operations, he may pay out twice as much in wages; but in doing so he creates twice as many goods that must be bought, so we are not very much ahead. But construction, especially of public works, results in large wage payments without producing more goods to be placed on the market immediately.

"Of course, the improvements must be paid for eventually and the future taxpaying ability of the country is discounted to the extent of the expenditure, plus interest. Therefore, wise spending suggests that we concentrate on such public works as are known to pay large returns on the investment. Paved highways, for example, save motorists in time and in operating and upkeep costs on their cars much more than the amount spent to build and maintain the roads. The interest and amortization of new road costs should and usually does represent a savings over old road maintenance."

Mr. Long concluded: "If money paid out by motorists in license fees and gasoline taxes is spent only on our highways, the road building programs of the various states can continue almost unabated, and we shall have the benefits of employment and buying power created without any increase in general taxation. But if the funds are diverted for general uses, the benefits are dissipated, unemployment is increased and the motorists are deprived of the highway facilities for which they have paid."

Musicians To Hold Annual Festival

Meeting At Packer Memorial Chapel At Lehigh University

(International News Service)

BETHLEHEM, Pa., May 6.—The twenty-fourth annual Bach Festival, to be held at Lehigh University's Packer Memorial Chapel on May 13 and 14, promises to attract the usual group of socially prominent persons of all parts of the country as well as many leading musicians.

T. Edgar Shields will be the organist and Mrs. Ruth Becker Meyers, formerly of this city and now of Long Beach, N. Y., the pianist.

For the last few weeks rehearsals have been held in the chapel. The chorus this year will number 240 with instrumental accompaniment by a group of 40 musicians from the Philadelphia Orchestra.

The soloists for May 13 will be Ruth Shaffner, soprano; Rose E. Bampton, contralto; Dan Gridley, tenor; Robert M. Crawford, baritone, and Charles T. Tittmann, bass. The soloists for May 14 will be Ernestine Hohl Eberhard, soprano; Amy Ellerman, contralto; Charles Stratton, tenor, and Messrs. Crawford and Tittmann.

The Moravian trombone choir of Bethlehem will again herald the opening of the sessions with its traditional chorales from the belfry of the chapel.

The preliminary rehearsal on the eve of the opening day will be omitted this year. The public formerly was admitted to this event.

A rally of the Junior Societies of the Lawrence County Christian Endeavor Union will be an event of Sunday, May 22, at 2:30 p. m., E. S. T., at the Central Christian church, corner Long and Pennsylvania avenues.

The program arranged is of more than ordinary interest with Rev. W. A. Lloyd of Leesburg, as the guest speaker.

Hospital Aide Closing Drive

Jameson Hospital Aide Will Make Membership Report Saturday

WOMEN OF CLUBS MAKING CANVAS

Saturday afternoon will bring to a close a week's campaigning in New Castle and community for new members to the Jameson Memorial Hospital Aide Society. A team of women from the clubs of the city have been making a house to house canvass for memberships each day of this week.

Until the money and cards are turned in tomorrow afternoon at the Y. W. C. A., the number of new members secured this week for the Aide Society cannot be determined. The membership fees and cards will be received by Mrs. Reed McGown and Mrs. F. E. Sowersby, as the campaign workers check in at the "Y."

The number of members enrolled in the Hospital Aide Society will determine the amount of donations the Jameson Memorial hospital will receive from the Society during the coming year. Materials for the making of hospital linens are purchased with the money secured as membership fees. The Hospital Aide Society furnishes practically all the linens used at this splendid humanitarian institution.

When approached this evening or Saturday morning, give this organization your support.

PARENTS-TEACHERS TO MEET AT VOLANT

Monday evening May 9 at 8:00, the Volant Parent-Teacher Association will meet in the Methodist church for the last monthly meeting of this school year. A. Braham, of New Castle, will be the guest speaker of the evening. An interesting program has been arranged.

SPYING ON SPORTS

BY WILLIAM RITT

Central Press Sports Editor

If a ball club likes pitching this season it is going places.

This has been demonstrated by an increasing number of major league clubs in two ways. Those clubs that have been getting better than fair elbowing you will find up around the sunny spots in the standings and those outfits that are suffering from mound trouble you will see clustered below the .500 mark.

Washington is the best example. The Senators haven't enjoyed a terrific punch this year, but they have outscuffed the Athletics and Yankees on occasions too numerous to mention in the presence of Philadelphia and New York fans.

Pitching is the answer. Good, old Dr. Johnson has injected some of his famous brand of smart twirling serum into his charges and if you don't think the Johnsonian nine has benefited, why, take another look at the American league statistics.

* * *

Until very recently the Senators had but one regular who was nudging the ball at a clip better than .300. He was Catcher Roy Spencer. However, the Washingtons continued to lick the Athletics and the Yankees, rated by many before the season opened their superiors. And it was all due to first-class flinging.

Leading the Senator rifle corps is Monte Weaver, a young fellow who is making a major league bow reminiscent of Wesley Ferrell when that Cleveland sharpshooter came up to the big time several seasons ago.

Weaver has confounded such ace hitters as Al Simmons, Mickey Cochrane and Jimmy Foxx almost with ease. Such hurling from the newest man on the staff, coupled with excellent work by Lefty Lloyd Brown, Carl Fischer, Bob Burke and other vets, has made the Senators what they are today—and is Washington satisfied!

* * *

Cleveland's great winning streak began with an excellently pitched game by Ferrell and was continued despite hitting lapses because the Indian moundsmen struck their stride and kept it.

Against the excellent showing of Cleveland and Washington, on the debit side of the big league ledgers, is the fate of the two league champions, the Philadelphia Athletics and the St. Louis Cardinals.

The A's big three of the mound—Lefty Grove, George Earnshaw and Rube Walberg—have been struggling in a bad slump and the Cardinal pitching has been very spotty, showing definitely the lack of Burleigh Grimes' fine, steady right arm.

QUEEN ESTHERS MEET

Miss Elma Reed and Miss Lois Hinkson entertained the members of the Queen Esthers of the Croton Methodist church in the latter's home on North Ray street, Thursday evening, with Miss Edyce Lackey in charge.

Miss Lois Hinkson was named as delegate to the district convention in Grace Methodist church, Grove City on May 10 and 11.

Evelyn McClelland gave the lesson for the evening and an election of officers was held with Edyce Lackey named president; Twila Truxall, vice president; Mary Scott, recording secretary; Evelyn McClelland, corresponding secretary and treasurer; Beryl Emery, devotional secretary; Eleanor White, mite box secretary.

Miss Eve Nicklin was in charge of the social period and refreshments were served by the hostess.

R. T. C. CLUB

The home of Mrs. Nettie Hill, Court street, was the gathering place of the members of the R. T. C. club Thursday afternoon and after the members had all arrived the hours quickly passed while they played pedro.

Winners of the prizes for the game were Mrs. Ida Wimer, Mrs. L. O. Rowland and Mrs. Belle Hopwood.

Lovely spring flowers were placed effectively about the living rooms and centered the table as the guests were served a delicious menu of refreshments.

Mrs. Ida Wimer, Court street, will be hostess to the members for the next meeting.

W. O. S. L. LUNCHEON

Mrs. Paul Cartwright of Ellwood City, will entertain the members of Lawrence County Unit, Women's Overseas Service League, Saturday at a one o'clock luncheon at the home of Mrs. David Cartwright, 26 Pittsburgh Circle, Ellwood City.

An idealistic land is one where everybody feels suspicious if you offer to do good without charging anything.

STORK'S GOING TO VISIT THEM

DORCAS CLASS

Members of the Dorcas class of the Central Christian church were pleasantly entertained on Thursday evening in the home of Mrs. Charles Shoaff, Rose avenue, with Mrs. Philip Wink, president, in charge.

A contest, which has been waging for several months between teams of the class, came to an end Thursday evening, and plans were promulgated for the dinner which the losers will serve the winner at the June meeting.

After a period of chat and song the members were served a dainty lunch, the hostess being assisted by Mrs. Harry Critchlow.

Small Cities Is Favored By Stork

Are Healthiest According To American Child Health Association

NEW YORK, May 6. — The smaller cities—10,000 to 100,000 population—were healthiest for babies in 1930, the report of the American Child Health Association for that year showed.

The report covers 860 cities in the birth registration area which includes the 46 states with compulsory birth registration. The National rate was 62.2 deaths per 1,000 live births, the lowest ever recorded.

Among the 10 largest cities, Chicago and St. Louis were tied for the best record with a rate of 54; Cleveland was third with 55, and New York fourth with 55.7. Boston and Pittsburgh trailed this group with a rate of 69, or 6.8 points above the National average.

The association's statement that the west coast and Rocky Mountains areas were healthiest, was corroborated by the fact that Seattle led cities with over 250,000 population with a rate of 37; San Francisco was next with 40, and Portland, Ore., third with 41.

Long Beach, Cal., led cities in the 100-200,000 class with 43; Oak Park, Ill., was healthiest in the 50-100,000 class with a rate of 28; Alameda, Cal., led the 20-50,000 class with 21.

BARON IN OVERALLS SINGS TO JOBLESS

(International News Service)

SAN FRANCISCO, May 6.—Veterans' Kitchen is not a high class eating place here, and the veterans who patronize it do not have linen napkins, finger bowls and demitasses.

But their appetites are whetted by the singing of an Italian baron.

Every day Baron Signor Giovandomenicue de Simone, known to the veterans as G. D. Simon, sings to the jobless as they dine.

The baron, so he says, recently turned down a contract to sing and act in the pictures so that he might be on hand to sing in the opera to open the municipal opera house here.

"The baron in overalls" he says is his title.

Among the lessons of the Great War is the one that a good liar can do more damage than a general.

MODERN PRISON CITY NEARING COMPLETION

(International News Service)

LEWISBURG, May 6.—Work on the "modern prison city," the new federal penitentiary, is going steadily forward on the outskirts of this town.

Twelve of the 21 brick structures to be erected at a cost of $3,000,000 are virtually complete. The prison was designed to house between 1,200 and 1,500 inmates.

The new penal institution will be known as the Northwestern penitentiary. Immediately upon completion in October, a number of prisoners will be transferred from Leavenworth and Atlanta where crowded conditions have developed.

An easy youth generally means a hard old age.

MR. BURNSIDE LEARNED LESSON IN SMOKING

(International News Service)

DETROIT, Mich., May 6. — A Burnside has learned his lesson: No more carrying pipe tobacco and cartridges in the same pocket.

Burnside pulled a handful of tobacco from his pocket and stuffed it into his pipe. Three long puffs he took and removed his pipe to answer a question.

There was a blinding flash, a sharp crack and Burnside found himself holding the shattered stem of a pipe. A .25 calibre shell nearby told the story.

Burnside's injuries were two lacerated fingers and a burned hand.

Those who live within their incomes are likely to live without worry.

Former President Pro Tem Of State Senate Dies In Atlantic City

(International News Service)

PHILADELPHIA May 6—Political circles today mourned the death of Senator Augustus F. Daix, Jr., former president pro tem of the Pennsylvania state senate and last surviving member of the Penrose-McNichol faction.

Senator Daix died last night at Atlantic City after a prolonged illness. With him at the time of his death were his wife, Mrs. Blanche L. Daix and a daughter Virginia.

For the past several months he had been under constant medical attention at a hotel in Atlantic City where he maintained living quarters. Physicians who had treated him for a heart ailment, were unable to save him due to his age, 63, and the seriousness of the attack.

The law forbidding anybody to take money out of Germany seems to settle the reparations problem.

To Seek European Laurels

Enroute to Italy to compete in the outboard motorboat regattas at Genoa and Turin, Loretta Trumbull, America's woman speed champion, is shown with her brothers, Rupert (left) and Raymond, shortly after their arrival at New York from California. Miss Trumbull and her brothers are taking a fleet of racing hulls with which they hope to outspeed Europe's best.

As "Old Granite" Voted

Carrying his 85 years like the soldier that he is, President Paul von Hindenburg of Germany, is shown as he left a polling booth in Berlin after he had cast his vote in the recent election. Although the veteran President was re-elected by a big majority over Adolf Hitler, Nazi leader, Hitler's party gained many more seats in the Diet than they had ever held previously.

Two New Castle Girls Are Winners

Awarded Prizes In Leland-Stanford University Poster Contest

In an International Art Poster Contest sponsored by Leland-Stanford University of Oakland, California, two New Castle High School students, Madalyn Nicholson and Rose Florida, have been awarded prizes. The contest took in school children of the United States and a number of foreign countries and the fact that two New Castle girls have been awarded prizes is highly significant.

The contest was for posters for the "Promotion of Humane Education" conducted by the Latgam Foundation of the university mentioned. Four divisions were made in the contest, the first three being for elementary children and the fourth for high school pupils. Seven first prizes were awarded, seven second, and seven thirds, with the judges passing upon postors from all over the world. Out of this immense number of posters the two New Castle girls placed as winners.

B. & O. VETERANS AND AUXILIARY HOLD PLEASANT MEETING

New Castle Division No. 30, Baltimore and Ohio Veterans Association, and New Castle Division No. 31 Ladies Auxiliary to the Baltimore and Ohio Veterans Association, held a joint monthly meeting last night in the Sons of Union Veterans Hall in the city building last night.

The affair was well attended and each of the organizations held separate business meetings, after which a social time was enjoyed, with Five Hundred as the principal diversion. Mr. and Mrs. William Mulcahy won the prizes awarded for high score in Five Hundred. Lunch was served at the close of the meeting.

The committee in charge of the very successful event consisted of Mrs. Oscar L. Murphy, chairlady, Mrs. Dennis Sturdevant, Mrs. Ray Muder, Mrs. Samuel Hey and Mrs. William H. Kilbreath.

Miss Salomon Is Accorded Honor

Miss Emilie Salomon, director of art for the New Castle schools, has been honored by the state superintendent of public instruction, Dr. James N. Rule, in being selected for a committee to revise the curriculum for the study of art in high schools.

With a number of other art directors over the state Miss Salomon will study the art curriculum, and make suggestions for changes which will probably be initiated next year.

BIRTHDAY SURPRISE.

Miss Bertha Gardner was pleasantly surprised when she went to the home of Mr. and Mrs. Claire McConahy, Loraine avenue, Wednesday evening to find a group of her friends gathered there to help her celebrate her birth anniversary.

After an evening at cards and musical entertainment the honored one was presented with a number of lovely gifts and the hostess, assisted by Irene Ayers, served a most appetizing buffet lunch to the sixteen guests.

Bessemer 70 Acre Plot Is Now Being Plowed For Community Garden

(Special To The News)

BESSEMER, May 6.—Plowing of the 70 acre plot known as the Sheer farm is under way and 125 persons have been allotted space for the raising of vegetables this summer. Seven tractors are in operation.

The ground has been loaned by the Bessemer Limestone & Cement company. The plots have been laid out by Justice of the peace J. R. Cheney. Gasoline for the tractors have been donated by D. C. McKee and oil by Chief of Police Archie Shoup.

Tractors are owned and operated free by Christy Cramer, Michael and Louis Grist, Bert Hayes, Frank Grayback, Clifford Wallace, Henry Smith and Lee Houlett. Within a few days all of the ground will have been plowed.

Twenty pounds of mixed seed has been donated by the Red Cross. Members of the Boosters Club who also donated seed are: C. E. Montgomery, Myron Smith, Chester Chadick, R. C. Wallis, J. A. Johnson, D. C. McKee, Archie Shoup, Richard Hillard, P. A. Kanengeiser, Charles Weitz, C. H. Lago and V. C. Mandish.

Welfare Committee Directs

The garden project is under the supervision of the Bessemer Welfare committee. Last year approximately space for 70 gardens was allotted. Each of the spaces this year is 100 x 100 feet. It may be possible to accommodate more than the 125 gardeners.

During the winter the Boosters club maintained a food distribution station. It is probable that conditions will become better here as the Bessemer Limestone & Cement company recently returned 125 men to work.

There are probably 40 at work at the Metropolitan Brick Company. The superintendents of the limestone and cement plant are D. C. McKee and J. A. Johnson and R. C. Wallis is general superintendent of the brick plant. P. A. Kanengeiser and Chester Chadick are also superintendents.

p. m. H. D. Rose will deliver the address for the evening.

Class night will be observed Thursday evening, May 26 at 8:00 p. m. On this night all graduates will speak.

Commencement exercises will be held Friday evening, May 27, at 8:00 p. m. The speaker of the evening will be Dr. Eisenberg, professor of Slippery Rock State Teacher's College. The valedictorian, Ruth Bingham and salutatorian, Charles Masters will deliver their addresses Friday evening. Other members of the graduating class are: Reed Thompson, William McKee, Melvin Grandey, Harold Rodgers, Clarence Miles, and William McCune.

Plain Grove School News

GRADES END SCHOOL

The grades of the Plain Grove Central School completed their 1931-32 term of school Monday, May 2, after a happy and prosperous year. A basket picnic was the enjoyable mid-day event of several of the rooms.

After this the event which the pupils have looked forward to ever since August 31, 1931, the final rendering of the report cards by the teachers took place. The afternoon was taken up by a music recital under the direction of Miss Allen, the supervisor of the school. A great majority of the music pupils performed in this recital.

A month later on May 30 the high school pupils will finish their term.

CLASS HIKE

The Sophomore class went on a hike recently. The pupils were under the guidance of Mr. Smith, their biology teacher. The trip started at nine o'clock and continued until ten thirty. The purpose of the trip was to give the pupils a broader idea of birds and their various surroundings, about which the class had just finished studying. Many of the birds with which several of the class are familiar were seen and the trip was interesting as well as educational. It was with a sad feeling that the pupils realized that 10:30 o'clock was drawing near, at which time the class returned to the school.

Union Heat And Light Company Fights Rate Cut

Expert Witnesses Are Called In To Show That Valuation Is Not Too High

BOROUGH ATTORNEY WINS POINT OF LAW

(International News Service)

PITTSBURGH, May 6. — The Union Heat & Light Company opposed the fight of four Western Pennsylvania boroughs for gas rate reductions before the Public Service Commission Thursday with the testimony of two expert witnesses.

F. C. Hamilton, consulting engineer for the H. L. Daugherty Company of New York, and R. H. Delfield, vice-president of the Columbia gas & Electric Corporation of New York, upheld the respondent's contention that the company's valuation of $800,000 is correct.

On the basis of a survey, Hamilton estimated it would cost around $800,000 to reconstruct the Union Heat & Light Company. Moreover, he placed its "going concern value" at a minimum of $70,000.

Delfield testified that the company's property valuation is $644,000.

"In order to reproduce the plant," he said, "it would cost $675,000, without taking into consideration the money that would have to be expended in raising this capital. The interest on securities would amount to $54,000 at an average rate of nine per cent."

Uses Best Value

The figures used by Delfield were based on the years of 1927 and 1928 because "the market value was at its best then."

"I doubt very much whether it would be possible to finance such a construction at the present time," he averred.

When M. B. Klinesmith, counsel for the complaining boroughs, Grove City, Sandy Lake, Stoneboro, and Volant, asked that Hamilton's cross-examination be delayed, John Mullen, attorney for the utility company objected. He informed Commissioner S. Ray Shelby the witness may not be accessible for some time. Klinesmith insisted he desired a transcript of the records before cross-examination and the motion was sustained.

Hamilton regarded a straight gas rate as discriminatory. In response to a question regarding the 60-cent monthly service charge, which the protestants claim should be abolished, Hamilton replied:

"The 60-cent charge is better than a straight meter rate but is not sufficient to cover all of the operative cost. Any straight meter rate tends to discourage consumption and is an imposition on certain consumers."

Mullen also placed Dr. E. J. Fithlan of Grove City, chairman of the board of directors for the Cooper-Bessemer company, on the stand to show the progress the company has made since acquiring ownership in 1913. "Prior to that date," Dr. Fithian testified "The service in the Grove City territory was inadequate. But now the supply of gas is abundant.

"A short time prior to 1913 we contemplated moving the company to another city where gas could be obtained in the desired amount."

ARROW AND FLINTS FOUND IN TREE

(International News Service)

LINGLESTOWN, Pa., May 6.—While sawing up an old colonial locust tree that had been blown down a few feet from the old foundation of Fort Patton, Lower Paxton township, a mile north of Fort Gilchrist, an arrow four inches long was found imbedded in the tree by Charles Brocher and his son, John.

After they had sawed through the arrow and the tree, they discovered halves of flintstones. Pulling them out they found they were parts of an arrow.

The old fort was used in colonial days and as many as 15 soldiers were stationed there at one time.

FINDS TEN PEARLS IN OYSTER COCKTAIL

(International News Service)

DALLAS, Tex., May 6.—"Diamond Market Drops," reads a news item. O. R. Kelley, pharmacist here, merely grins.

Kelley was eating an oyster cocktail, a part of the 50-cent dinner, when he found a small round object in the food. He investigated and when he finished, nine small white pearls and a large dark one lay on his plate.

Their total weight was 4½ grains. Kelley is wondering how they would look in a stick pin.

Capone Cramped In Federal Pen

Convicted Gang Lord In Prison Hospital For Next Three Weeks

NO ROAMING FOR RESTLESS "AL"

(International News Service)

ATLANTA, Ga., May 6.—Back in the days when he held sway over a vast underworld dominion, Al Capone was reckoned to be quite a traveler. He was fond of moving about.

But now his movements are as limited as those of a lion in a circus cage.

He cannot even roam over any generous portion of the walled in 30 acres which comprise Atlanta federal penitentiary.

Today the gang chieftain was rigidly confined in the quarantine ward. Within its narrow boundaries "Scarface Al" must remain for the first three weeks of the ten years which he will spend in the prison as the legally prescribed restitution for having cheated the government out of income tax payment.

Minute Examination.

Attired in the coarse blue denim garb of a convict, Capone was undergoing the multifarious and minute examinations of medical experts. These tests will continue for three weeks in order to insure, as required by law, against contagious diseases.

When he passes through the medical ordeal, Capone will then be studied for his talents and proclivities so that he might be assigned to the work best suited to him. When he is given work to do the incarcerated gangster will settle down to the hum-drum prison routine and will at last be permitted to mingle occasionally with his fellow-convicts and move about a bit more freely.

Very Few Visitors.

The possibility that Capone may be able to direct his liquor, vice and gambling enterprises from his prison cell was minimized by the announcement that henceforth visitors will be allowed to see him only twice a month and each call will be restricted to 30 minutes.

Penal authorities have already refused to permit two local hotel owners to "have a word with Al."

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle.

It needs something about once a year to remind people how good their youngsters are. This year's reminder was in the George Washington junior high school last night when the school choruses of the public schools presented a festival of music.

From the crowd that jammed the building, it should have been held in the Cathedral or the stadium. Standing room wasn't at a premium, it was unobtainable, and the young singers had a packed house for their efforts.

A number of the songs used were original by the children themselves, and if you happen to be skeptical, take our word for it. This isn't the first time they have used their own songs, and while there wasn't any boop-a-doop harmonies in them, they were cleverly done.

If anybody happens to have a book on the "Care and Feeding of Red Raspberries" we would be interested. For some time we have been considering a few of the bushes, just for Sunday dinner desserts and finally found a friend who had some. Asked him for six and he sent down nearer 26.

If every one of those raspberry bushes live up to the family tradition, we're going to be able to furnish berries in job lots. They make a nice hedge, but they make a nicer dessert.

Another friend kicked in with half a dozen black currant bushes. Among a large percentage of citizens a black currant is as tasty as a chunk of a fireman's helmet, but there are a few of us left who still take our black currant jam in habit forming quantities.

We're now prepared to dispense information concerning the state flowers of the various and sundry states of this well known land of the free. Roger Francis has taken time to compile the list and it becomes a part of the records of this department.

Rev. Joshua informs us (in strict confidence) that the athletes you see training hither and yon about the county are preparing themselves for the field meet of June 10, sponsored by the Croton M. E. church. From here to Lake Erie there will be church athletes, and when the meet gets under way, look out Olympics.

The meet will be one feature of the week set aside for the celebration of the 85th year of existence for this church. For 85 years it has been serving up in that section of the city, a factor in the civic life of the community, a solace in time of trouble, a well rounded church entity that serves and has served, well.

TO SHIP FIRST OF POLK BRICK ORDER SHORTLY

Pearson Plants Here Will Supply Million And Half For State Work

The Pearson Brick company here within two weeks will commence shipping the first of a cargo of a million and a half bricks to the Polk Industrial Institute, at Polk, Pa., where the state will use them in the construction of a new boys' infirmary.

The Pearson company today announced the order has been placed. It involves the expenditure of over $10,000.

S. D. Pearson said that 500,000 bricks would be manufactured at the plant of the company north of the city, 900,000 would be produced at the Volant plant and the remainder at the Hanleyville Brick company plant at Summersville, Pa.

The order will keep the Pearson plants here and at Volant operating at a steady capacity, since additional work is being provided by the huge brick order placed months ago for the Northeastern Federal penitentiary at Lewisburg, Pa.

LAW ALLOWS GANGSTER TO MAINTAIN ARSENAL

(International News Service)

DENVER, Col., May 6.—There is no law in Colorado to prevent a citizen from keeping firearms in his own home. As a result Eugene (Checkers) Smaldone, asserted Denver gangster is in possession of four new .35 caliber rifles of the latest types. Two sawed-off shotguns and a Browning automatic rifle.

The guns were seized in a raid on Smaldone's home by police following the murder of Vincent Mortellaro, alleged rum runner, in a recent flareup of gang warfare. Ben Laska Smaldone's attorney demanded that the guns be returned to his client and police had to comply with his request.

Vacant Rail Land To Be Cultivated

Pennsy To Donate Community Plots To Employes; Plan Garden Work

Continuing a policy established some time ago, local officials of the Pennsylvania railroad announced today that all suitable vacant land owned by the company will be made available this season to its active and furloughed employes for the cultivation of vegetable gardens. Tracts which might be planted successfully will be assigned as requests are received from employes.

In this time of economic stress, E. & A. division officials stated, the Pennsylvania wishes to help its employes lower their cost of living and believes that the planting of a garden for the use of the family will be a sound measure of economy and thrift. The cause of good health will likewise be promoted.

The road's action is in harmony with President Hoover's Organization on Unemployment Relief, officials said. All divisions are participating where possible to do so.

Honeymooners See Suicide Of Crane From Ocean Liner

Mr. And Mrs. Morris I. Storch Witness Sensational Leap Of Well Known Poet

Mr. and Mrs. Morris I. Storch, who have just returned from a honeymoon trip to Havana, were shocked on the voyage from Havana to New York by the sensational suicide of Hart Crane, a well known poet, who won the Gugenheim prize in 1931.

Mrs. Storch saw Crane make his fatal leap over the side of the vessel. Mr. Storch saw him as he was struggling in the water, while both watched breathlessly while efforts at rescue were made. First two life preservers were tossed to the drowning man. He made no effort to grasp them. By the time life boats were lowered he had disappeared. Mr. and Mrs. Storch had been talking with Crane the evening before. It is said that Crane's suicide was caused by grief over the death of his father.

Wedding of Mr. and Mrs. Storch occurred at Wilkes-barre on April 19. Mrs. Storch's maiden name was Annabelle Prinsky. She is the daughter of Jacob and Jennie Prinsky, former residents of New Castle, but now residing at Avoca, Pa. Mr. Storch is a well known salesman at the Klafter cigar store. They were married by Rev. Dr. Salzman at Wilkes-barre, and immediately left on the Orezaba, of the Ward steamship line, for Havana.

They will reside at 416 Sheridan avenue.

MANY FEATURES FOR NEW SHREDDED BISCUIT

Kellogg's WHOLE WHEAT Biscuit Set New Standard for This Type of Cereal

Local grocers are featuring a new shredded biscuit developed by the Kellogg Company of Battle Creek, Michigan, which is a decided improvement in many ways. The improved Kellogg biscuit is "pressure-cooked" by a special process that retains the complete food value of the whole wheat. At the same time, delightful flavor is *baked in*.

Other improvements are a biscuit of more convenient, economical size. Two of these new biscuits just fit the cereal bowl. You get 15 to the package instead of the usual dozen. And every biscuit is toasted a rich golden brown on both top and bottom—not just one side. This makes them exceptionally crisp.

These new biscuits have been analyzed by the Medical Arts Laboratory of Philadelphia and found to be so rich in food value that every package is certified. Any mother can now be certain her family is getting a well-balanced food with these new Kellogg biscuits.

Kellogg's WHOLE WHEAT Biscuits are tasty for breakfast, lunch, children's suppers. Extra good with fruits or sweetened with honey—in addition to the milk or cream.

Rumor Haven May Be Chief

Mayor Refuses To Give Any Information On Possible Choice

APPOINTMENT IS TO BE MADE SOON

Mayor Charles B. Mayne, director of the department of public affairs, today stated that a new chief of police will be named within the next 30 days or less. The mayor refused to name the man whom he will recommend as a successor to Chief Cy Horner.

During the past few days there has been considerable gossip about possible changes in the department, especially the chiefship, and when council met today Councilman Treser asked Mayor Mayne if he had any recommendations to make in the police department.

The mayor replied negatively, although Treser said he had promised a friend to "be for the man" the mayor wanted. Following the council session a reporter asked the mayor, "Who would be the man named and when would he be named?"

"Ask Mr. Treser who he is," said the mayor to the reporter when Mr. Treser's councilmanic utterance was repeated.

"Treser won't tell," the reporter stated.

The mayor proved equally noncommittal.

"I understand John Haven will take the police examination Monday night," said the reporter, gossip yesterday being to the effect Mr. Haven had secured a civil service application. (The test will be held Monday night at city hall.)

"Where does Mr. Haven live?" asked the mayor.

"Mayor, you know where everybody in town lives," the reporter smiler.

The mayor said:

"Mr. Haven has not been in my office."

He inferred that he had not discussed the situation with Mr. Haven.

"I understand that if Mr. Haven takes the test, as it is reported he will, and is among the first four on the list of eligibles, and is recommended he will be confirmed as chief," the reporter said.

"I'm not saying whom I will recommend. I might want a man for chief today and not want to 'put him up' tomorrow . When I recommend a new chief of police he will be elected chief of police," the mayor said.

"Are you first going to confer with colleagues about the new chief?" he was asked.

"No, sir. No one will know whom I will recommend until I announce his name in council session," the mayor declared.

"Will it be within a week or two?"

"A month," smiled the mayor.

"You mean 30 days?" the reporter asked.

"Thirty days or less," the mayor smiled.

There have been several names which rumor has stated are likely to be recommended. They are Mr. Haven and Patrolmen William Tyrrell and Thomas Jones, and the name of Marion Young is also heard. Mr. Haven has not been interviewed as to the reports of his likelihood of becoming chief.

The mayor is the only one, apparently, who knows who he will name. He has been consistent in declaring he has not told anyone whom he will recommend as a successor to Chief Horner.

Executive Committee Of Sabbath School Association In Session

CONVENTION TO BE HELD AT WESTFIELD

The monthly Executive Committee of the Lawrence County Sabbath School Association met at the Y. W. C. A., Thursday evening at 7:30 with the president, Rob't M. Strickler, Jr., presiding, and the following members present:

D. M. Marshall, vice-president, Mrs. M. E. Vaughn, secretary; Miss Margaret Walker, temperance superintendent; Rev. J. Ralph Neale, pastor of the New Wilmington United Presbyterian Church, Rev. D. C. Schnebly, pastor Mahoningtown Presbyterian Church, and Mrs. F. R. Weise, additional member of the executive committee.

The chief matter under discussion was the coming County Convention which is to be held at the Westfield Presbyterian Church, Thursday, June 9th. The Westfield Church, under the leadership of Rev. Ross M. Haverfield, pastor of the convention church and Christian Education superintendent, is actively engaged making plans for the entertainment of the convention at the present time.

The two representatives of the State Association who will take part on the program will be Rev. E. H. Bonsall, Jr., Young People's superintendent.

An outlined program for the convention was made up by the executive committe and a committee was appointed to complete the program consisting of Rev. D. C. Schnebly, the president and the secretary.

It was moved, seconded and passed that each Sabbath school in the county be given a certain number to attend as registered delegates, and these will be admitted to the church before the doors are thrown open to the public. The idea for this is to give every Sabbath school in the county an equal opportunity of sending a proportionate number of delegates.

Plans were also made for a visitation of all the schools by speakers representing the organized Sabbath School Association sometime before the convention.

"Esau Sells His Birthright"

"Brass Tacks" On The Sunday School Lesson

The Golden Text

Every man that striveth in the games exerciseth self-control in all things.—I Cor. 9:25.

By DR. ALVIN E. BELL

(The International Uniform Temperance Lesson for May 8 is Genesis 25:27-34, the Golden Text being I Cor. 9:25, "Every man that striveth in the games exerciseth self-control in all things.")

If the committee was guided to select this particular lesson for Mother's Day it must have been with the purpose of showing us attitudes which mothers and fathers should not assume toward their children. For we read here of a partiality of the mother toward Jacob and of the father toward Esau which created an unfortunate situation for which their sons were not entirely responsible, and the curse of which was perpetrated through many generations. "And the boys grew: and Esau was a cunning hunter, a man of the field; and Jacob was a plain man, dwelling in tents. Now Isaac loved Esau, because he did eat of his venison; and Rebecca loved Jacob." Much criticism has been heaped upon "the rising generation" in this ancient Syrian tent that should rather have been directed at the parents of Esau and Jacob.

Esau's Birthright

While Esau and Jacob were twin sons of Isaac and Rebecca, Esau was the elder of the twins and therefore entitled to the birthright. This consisted usually of a double portion of the material inheritance from the father. But in this case where certain spiritual promises concerning the Messiah were being handed down from generation to generation the birthright possessed an unusual spiritual significance. This spiritual significance of the birthright meant nothing to Esau. He was not in the least interested in such affairs. There was not in him that faith in Jehovah's messianic plans that would have fitted him to become God's instrument and channel for the bestowal of his spiritual blessings upon future generations. God, foreseeing this unfitness of Esau, chose Jacob as the appointed channel of spiritual blessings. However, the knowledge of this situation does not excuse Jacob's taking advantage of Esau's weakness to get the transfer of the birthright he coveted from his brother who despised it.

The Mess of Pottage

The opportunity to drive a hard bargain with is rash and impulsive brother came to Jacob one day as Esau returned from his hunting tired and hungry to find the tent reeking with the odor of a mess of red pottage of lentils Jacob was cooking, probably to tempt his brother Esau to the rash act he felt he could induce him to commit: "And Jacob sod pottage: and Esau came from the field: and he was faint: and Esau said to Jacob, Feed me, I pray thee, with that same red pottage, for I am faint." Here Jacob took advantage of his brother's weakness, knowing his impulsiveness and his contempt for the spiritual significance of his birthright, by demanding of his hungry brother, "Sell me this day thy birthright." No sooner said than done. Esau agreed and "swore unto him and sold his birthright," his alibi being, "I am at the point to die: and what profit shall the birthright do to me?" But the inspired comment of Moses is, "So Esau despised his birthright." And the New Testament comment speaks of him as that "profane person, who for one mess of meat sold his own birthright."

Modern Messes of Pottage

The same "profanity" of Esau is perpetuated whenever we allow sensuality to dominate over spirituality; when we permit the pleasures of the moment to blind us to the remorse of future years; when we feed the flesh and starve the spirit, losing the soul to gain the world.

Uniontown Man Kills His Wife, Committs Suicide

Mother-In-Law Is Probably Fatally Wounded By Bullet In Hotel Shooting

(International News Service)

UNIONTOWN, Pa., May 6.—Joseph Yedesky, 28, a local barber, today shot and killed his wife, Edna, probably fatally wounded his mother-in-law, Lena Ache, and then killed himself.

Yedesky, according to reports, had been daily annoying his estranged wife, living at the Hotel George with their children, in an attempt to effect a reconciliation.

His wife, refusing the proposed reconciliation, summoned police to have Yedesky ejected. As police approached, Yedesky opened fire on his wife, and mother-in-law and then turned the gun on himself, police reported.

GERMAN PILOT HAS AN UNUSUAL RECORD

(International News Service)

BERLIN—Five hundred thousand miles flown without any serious mishap either to his machine or the 7,000 passengers carried is the record of Karl Schaefer, veteran pilot of the Deutsche Lufthansa, German Airways Company.

Herr Schafer has flown 300,000 miles in the same machine and is living proof of the safety of modern air traffic. German business and statesmen are getting airminded, he declared from his vast experience. "Once man has tried flying and finds out that it not only saves time, but holds no more risks of accidents than perhaps the rail roads," the storm-battered pilot said "he is always a passenger."

Chancellor Heinrich Bruening and especially Hans Luther, president of German Reichbank, use planes for all their trips.

Dr. Clendening Tells Why A "Broken Back" May Not Be Serious

Severe Pain And Stiffness From Sudden Jolt Found By X-Ray To Be Due To Fractured Vertebra

By LOGAN CLENDENING, M. D.

Many years ago there used to be a complaint known as "railway spine." Many people who were injured or jolted on railroads complained of pain and stiffness in the back. Sometimes the injuries were very trivial—such as being thrown by the motion of the train against the arm of a seat—and the disability seemed out of all proportion to the cause.

Then came the X-Ray. At first it was considered a sort of scientific toy. One could photograph a purse and see the coins and keys inside, or a shoe and see the nails in the heel. Then it was found that it would show the position of bones and surgeons began to use it in case of accidents and injuries. They discovered that many conditions they had considered sprains really were fractures of bones.

At first the X-Ray tubes used were so weak that they would not reveal the structure of any but the most superficial bones—the bones of the arms and legs. With improvement in the machinery, the rays could be made to penetrate more and more deeply, and in the course of time pictures of the spine were made which revealed clearly and completely all the structure of the vertebrae.

Then it was found that most of the cases of railway spine actually were a fracture of a vertebra. Sometimes of the little processes at the side of the vertebrae—sometimes of the body of the bone itself.

The conception of "broken back", therefore, must be changed. The conception, at least, which supposes that it is always a very serious and very crippling injury.

A surgeon who did not stop to think what an older generation's idea of broken back means, sent a telegram to the mother of his patient who had been in an automobile accident. I read: "John fractured two vertebrae. Doing well." The mother translated "fractured vertebrae" into "broken back" and was nearly frantic until she discovered that there was just a little spicule of bone chipped off. John had a pretty sore back for a while, but is now getting about as well as ever.

So long as the nerves and spinal cord, which the vertebrae surround, are not injured, a "broken back" may not be a very serious injury, although the pain and disability last a long time.

QUESTIONS FROM READERS

Mrs. R. K.: "Is tuberculin a cure for tuberculosis? How is it given to a person?"

Answer: Tuberculin alone is not a cure for tuberculosis. Many physicians do not employ it at all. The best cure for tuberculosis of the lungs consists of rest, fresh air and good food. When it is employed, tuberculin is given hypodermically in very minute quantities.

JUDGE SAYS BRIDGE BREAKS UP HOMES

CHICAGO, Ill., May 6.—The popular game of bridge finds no favor with Judge Joseph Sabath, who has listened to countless marital woes and issued 50,000 divorces during his years on the bench. Recently declining to introduce speakers in a bridge lecture, Judge Sabath said:

"I have seen countless cases of jangled nerves and serious disagreements result from bridge table arguments, and it would be my advice to married couples that they should not play bridge together."

Lawrence County League To Open Saturday

Six Teams To Comprise Loop

Lawrence County League Meets Inaugural With Three Games Carded

FAST LEAGUE IS EXPECTED

Although the majors and minor leagues have swung into action and are now settling down the season grind, the Lawrence County League teams will get started Saturday on the 1932 season. There are six teams in the league. Three games will be played tomorrow. The fans of New Castle and vicinity can look forward to some very interesting games.

Alec Samuels, president of the league had the following to say regarding the opening. "We have only six teams, but we are looking for some fast baseball and I think that the circuit is going to be successful this season."

Have Player Limit

There is a player limit of 20 men. All of the teams have signed contracts and they are all in with the exception of the West Side Tigers and they were late coming into the league. They have been given a period of grace.

The teams are eagerly awaiting the cry of the umpire "Play Ball." The starting time of the games will be 3 o'clock Daylight time for the games here in New Castle and 3 o'clock Eastern Standard Time for games played in the outlying sections.

SEND BOX SCORES TO NEWS OFFICE

Managers of the home team should compile the box score, write the features of the game and have it in The News Office on the night of the day the game is played. Unless this cooperation is given it may not be possible to publish the report. Fans are entitled to the information. Send all news concerning the league direct to the Sports Editor, New Castle News.

It was thought for a time that Ellwood City would be in the league this season, but the Ellwoodians finally decided to re-enter the Beaver County League instead, and the loss of Lawrence County League is a gain for the Beaver circuit. The Shenango Pottery team, champions of the 1931 season will not be back again, and neither will Hillsville.

Managers Listed

The old standbys such as Brent, Bessemer, Universal, Wampum and Scarazzos are back, and the one new team is the West Side Tigers. For the information of those fans and players who are interested the following are managing the various teams—Wampum—Bob Robertson: Brent—Charles Grundy: Bessemer—Martin: Universals—Dean Staley: West Side Tigers—Lou Faller and Tom McCormick; Scarazzos—Alec Black. Ralph Stewart will aid Grundy at Brent it is understood.

New Castle's season will be ushered in with the playing of the Scarazzo and Wampum game at Centennial Field. The other two games will be played in the county section with Universals at Brent and West Side Tigers at Bessemer.

"Junk" Jones of the New Castle Umpire's Association has selected the following umpires for the three games—Dunn and Bishop at Centennial Field: Ben Price and Ross at Brent. Guinaugh and Minner at Bessemer.

Need Co-operation

The season opening tomorrow will run until late in August it is understood, although a definite schedule has not as yet been arranged, due to the fact that the original schedule which would have been out by now contained Ellwood City, but when this team dropped out, it was necessary to make out an entirely new program.

Coperation more than anything else is going to put the league over this year and if the various players and managers will all strive to make things as pleasant as possible at the games the circuit should be a success.

Ramsey Nine To Battle Elders

Tonight at 6 o'clock Daylight Time at Elders field the Ramsey team will play the Elder A. C. A fast game is expected. The following players are asked to report at the field at the appointed hour—R. Cannon, William Marlin, Ward L. Frank, H. Reynolds, S. Ramsey, W. Ramsey, Chill, Jimmy Shaffer, Linton, Mitcheil and Cal. The Ramseys would like to book games with all first class teams, for games call 1721 and ask for "Shorty."

Camera At Tape For Winners Of Sprint Events

Pitt Officials Will Seek To Eliminate All Disputes This Year

NEW CASTLE HIGH ENTERED IN MEET

PITTSBURGH, May 6—When the six finalists in the Silver Anniversary 100 yard dash at the University of Pittsburgh's 25th Interscholastic Track and Field meet this Saturday, come down the stretch, there will be chance of such a mixup as resulted last year, when the winner was not actually decided until the following week.

In 1931, so close was the finish of the century, that the judges were confused and it was not until they viewed a picture of the race the next week, that they saw the real order of the first four men.

After looking at this photo they reserved their decision and moved Hines of Warren, Ohio up from fourth to a tie for second place, which automatically threw his team into a tie with New Castle for first place in the meet.

This year there will be a photographer at the finish with a slow motion camera, and in case of a close finish the decision will be withheld until the film is developed. This will go, not only for the 100, but for all other track events.

Incidentally, Hines, of Warren, O. is back again this year, and is leading contender for the handsome silver trophy to be awarded the winner of the centry. Right now it looks as though his closest competitors will be Whipkey of Connellsville, Jakes of Midland, Giles of Washington and Redd of Uniontown.

Following are the schools entered to date: Akron Central, Ambridge, Aspinwall, Aliquippa, Boardman, Ohio, Erie East and Erie Strong-Vincent, Steubenville, Salem, Ohio, New Castle, Monessen, Connellsville, Midland, East Palestine, Ohio, Mannington, W. Va., Turtle Creek, Wilkinsburg, Peabody, Westinghouse Latrobe, Jeannette, Scottdale, Windber, Boswell, Holidaysburg, Oliver, Perry Beaver, Langley, Uniontown, Union City, Franklin, Mt. Lebanon, Washington, Crafton, McDonald, Ferndale Washington Twp., Fayette City, Monongahela Twp., Rochester, Tarentum, Freeport, Dormont, South Hills, Braddock, Duquesne and Butler.

HEARTS TO PRACTICE.

Sacred Hearts A. C. mushball will practice tonight at 5:30 o'clock at the Genkinger field. All players must report promptly to Perch Ross or Joe Aiello. The team is entered in the New Castle Mushball league.

EAGLES WANTS GAMES

Eagles would like to book games with any team who's players do not average over 16 years of age. Call Joe Mescall, 3633-R.

Mahoning A. A. Wins In Seventh Inning

Two were retired when Mahoning A. A. scored the fourth and winning run over Universal Sanitary yesterday, the former capturing the game 4 to 3. Orlando and Mash hit triples. Five pitchers were used.

Field Of Horses For 1932 Kentucky Derby Is Anything But Classy

CROWD DWINDLES TO MERE 35,000

By FRANK G. MENKE
International News Service Sports Editor

LOUISVILLE, Ky., May 6.—On the eve of its most classic sport carnival, the Kentucky derby, this Metropolis is more sombre than it is gay; its mood is disconsolate rather than radiating the sparkling spirit that has been synonymous with the derbies that are gone.

The derby should hold forth the promise of a test among great, great 3 year olds. But that of 1932 is tragically different. Always, at derby time, the dust of the streets should be swirled into clouds by the blithe, carefree, holiday spirit of tens of thousands of alien feet, come to Kentucky for holiday and to pay tribute to the thoroughbred. But this year it is not so.

Glamor Is Gone

The cash register of merchants should be tinkling merrily, but they are not. All the reserved seats at gigantic Churchill Downs should be sold out, but thousands remain in the box offices and at the different agencies.

In olden and more golden times a derby attracted 50,000, 55,000 and 60,000. There is skepticism today when 35,000 paid admissions are hazarded.

Tick On Favored

Tick On continues to be a favorite at around 2 to 1, with Mrs. J. H. Whitney entry second choice at 4 and the Bradley entry at 6. It is certain that Burgoo King will run for Bradley in the derby classic but Brother Joe, his stablemate, must show something in a workout today or surrender his chance to race for glory in the Bradley colors.

There is little chance that Universe will face the starter. Economic hasn't worked satisfactorily but will go regardless because his owner, J. H. Loucheem has $1000 bet against $50,000 in the winter books on his colt to win and Liberty Limited is now a doubtful starter because of a miserable workout.

The field lacks in brilliancy and consistency and apparently in the thing that horsemen refer to as class; and it may be "just another horse race." But it ought to be a sizzler and that, if you aren't too insistent upon speed and too snooty relative to "class," would be most satisfying indeed.

YOUNG EAGLES WIN

Young Eagels baseball team handed the Spring Hill Midgets a 7 to 4 setback last night in a game at Glasser field. Ostrosky was the leading hitter of the game with a homer, two triples, a double and single.

New York Giants, Brooklyn And Athletics Show Way To Western Clubs

By LES CONKLIN
International News Service Sports Writer

NEW YORK, May 6.—Four form reversals that make baseball the game it is, were written into the records in bold relief today as intersectional warfare was resumed in the major leagues.

The west, expecting to find easy pickings in Brooklyn and the Giants, buried in the National League cellar, was a bit skeptical today about the reported collapse of the two metropolitan teams. The tail-end Giants shattered the four-game winning streak of the champion St. Louis Cardinals in their first start in the west, while the lowly Brooklyn Dodgers prevented the flying Cubs from going into first place.

Indians Slaughtered.

The west got another shock when Cleveland, victorious in ten out of eleven starts, was slaughtered by the supposedly slipping Athletics, 15 to 3. Just to keep the east from becoming too cocky, however, Cincinnati tripped the league-leading Boston Braves, 9 to 6, with big Butch Lombardi swatting a home run and a triple, sending four runs across the plate.

The Brooklyn-Chicago game was the best one of the day. Lefty Clark outpitched Charles Root and Burleigh Grimes, and won his own game, 2 to 1, by socking a double to the center field fence after Hack had booted Lopez's grounder. It was Brooklyn's third straifht win.

Terry Hits Homer.

Bill Terry took the lead in the home run derby by clouting his seventh four-bagger of the season as the Giants took a 10 to 6 slugfest from the Cards. Allen's triple with the bases loaded in the sixth gave the Giants the game and pulled them out of last place, ahead of Pittsburgh. Sam Gibson, New York rookie from Frisco, was the best of the seven hurlers who saw service.

The Athletics handed the mighty Wes Ferrell his first defeat of the season as Lefty Grove held the Indians to six hits and three runs while the A's collected seventeen safeties and fifteen runs.

Grove also starred in a big seventh inning rally when he got two singles as his mates pushed seven runs across the plate. Foxx, McNair and Kamm hit homers.

Bump Hadley, former White Sox and Washington hurler, won again for the St. Louis Browns, beating Boston 11 to 3. Lin Sorti, St. Louis third basemen, got four hits.

Other teams did not play.

Castle Smacks Top Boro A. C.

Castle Smacks baseball team handed the Boro A. C. a 3 to 1 defeat last night in a game played at the Clifton Flats field. The game was a pitching battle between Wilson, Martin and Shoaf, with the two former pitchers having the best of the argument, allowing the losers but three hits. The Smacks had five hits off Shoaf. F. Neyman and Martin had triples.

Score by innings: R H E

Boro A. C.	001	000	—1 3 1
Castle Smacks	110	10x	—3 5 2

Batteries—Smacks, Wilson, Martin and R. Neyman. Boro A. C., Shoaf and Sovesky. Umpires—Gonda and Watkins.

ROSE AVENUE WINS

Rose Avenue mushball team handed the West Side Merchants a 13 to 8 setback last night at the Rose avenue field. Reiter and Kelly hit home runs for the winners. Irwin and Walzer were the best for the losers. Saturday at the Rose avenue field the Oak A. C. will be the opponent for the Rose avenue team. High Track Team Will Go To Pitt

High Track Team Will Defend Laurels At Pitt Meet On Saturday

New Castle High truck and field team will go to Pittsburgh early Saturday morning by automobiles, for the annual Interscholastic track and field meet at the University of Pittsburgh Stadium. The local party will contain about ten, including six track men, Head Coach Phil H. Bridenbaugh, Assistant Coaches Klee and Thomas, and Faculty Manager Ralph H. Gardner.

The red and black cinder artists who will likely make the trip are: Andy Lasky, star trackster, who will put the shot, run the high hurdles and throw the discus. Lasky was the main cog in the New Castle team last year and will be counted upon heavily Saturday. Johnny Uram will likely be started in the 100 yard dash, having run the century in better than 11 seconds in training. Lane will be taken for the broad jump events. Teplica, Patsy James and Scarazzo may go to Pitt as the runners, and Karki is sure to start in the half-mile.

The locals are defending champs at Pitt, having won two years and tied last year with Salem, Ohio, for the championship. Coach Klee has done very fine with the track team in early rehearsals. He has the boys in the best of shape. Lane is jumping around 19 feet and should place with a jump of that distance tomorrow.

Lasky is running the high hurdles in around 17.8, and is throwing the shot around 46 feet, and these marks should win places at Pitt. New Castle will be weak in the distance runs and the 220 and 440.

George Washington Junior High Wins

George Washington Junior high baseball team defeated the Merchants delivery 4 to 2, yesterday on George Washington field. Perrett fanned 8 of the Merchants boys. Bodendorfer and Axe struck out six Junior High hitters. Jap hit a home run. Owrey and Bodendorfer also hit for extra bases.

NEW YORK STOCKS

Congress Rebuke Is Stimulus To Market

(International News Service)

NEW YORK, May 6.—The stock market received a temporary stimulus today from the demand of President Hoover on Congress that it balance the budget as speedily as possible.

Rails were carried forward in the early run-up but were the first to give ground, producing an unsettling influence on the rest of the market. N. Y. Central and Atchison particularly continued to show pressure.

Oils were mixed, weakness in Royal Dutch being a disturbing element. Standard Oil of New Jersey was strong, however, and gave the group support.

Specialties like American Can, Union Carbide and Allied Chemical which were under the most pressure in recent sessions scored the biggest rebounds. Auburn was nothing like its old self, its gain being only fractional. U. S. Steel and American Telephone met offerings on the way up and were held in check.

Outside markets were colorless. Bonds were irregular with government obligations weakening. Cotton was better but Wheat was reactionary.

Ellwood High Will Defend Track Title

ELLWOOD CITY, May 6.—Ellwood high is in for an interesting session when it plays the role of class A title defender at the annual Geneva interscholastic meet Saturday.

Last year the local cinder stars took the meet with a little over 23 points in competition with 60 other high schools. New Castle, the runner-up, is the title defender at Pitt on the same day. It is expected that the winning score will have to be a little larger this time because of the smaller number of schools entered and points will not be divided so much.

This year the meet will be run in divisions in which three winners will emerge. Ellwood high is in the class B division with Beaver Falls, New Brighton, Ambridge and other valley schools. It is expected that the four named will be the chief participants for the class B crown.

Since Ellwood's defeat at New Brighton last Saturday Coach Todd Lloyd has taken nothing for granted and has placed his charges through a serious training course all week. This period was concluded last night. The whole squad will rest today.

The members seem to realize that they will have a real battle on their hands at Geneva Saturday. So in order to offset real danger as much as possible Coach Lloyd took several of his trackers to Reeves field Wednesday evening for a few trial runs. The milers held a special run of their own at this time.

Coach Lloyd announced that he will be in full strength on Saturday. The team is in fine shape with the exception of "Cordy" Cavalier, who has been out of practice all week with a bad ankle. Whether he will be sufficiently recovered to complete Ellwood's excellent shuttle relay team is not known. With the addition of Charley McCloskey the team will be just as strong as last year. The other three members are the same. Ellwood set a record of 59 seconds for this race last year.

Much responsibility will be placed Saturday on Captain Joe Welsh in the dashes, Ralph Strouse in the hurdles, John Lincoln in the mile and Dick Wilson in the half-mile. All have fine chances to cop first honors. Strouse and Lincoln are record-holders. Ellwood high will stack her best against the cream of 40 other schools on Saturday. Ellwood has been a winner at Geneva for two successive years. The locals won the class B crown in 1930 and the class A in 1931.

The program at Geneva will feature some very attractive relay races in which Ellwood will present formidable teams. The mile relay team composed of Johnson, Lincoln, Wilson and Barne, according to their recent showing, may set a new record. Coach Lloyd will present a fine 880-yard relay team also. It will be composed of Welsh, Kuben, Mundo and Strouse. The 440-yard relay team will be the same with the exception of Leymarie, who will replace Strouse. Coach Lloyd is undecided as to whether he will enter a medley relay team. Everything will depend upon the condition of his men at the time the race is to be run.

If there is anything that has given reason to gladden the heart, it is the recent showing of Ellwood's weight team which has come along in leaps and bounds. Mike Paal on Wednesday and Thursday has been throwing the shot nearly 44 feet and Red Vogt has continued his fine showing with the discus which he has been throwing on an average of 115 feet. John Savor has shown remarkable improvement with the javelin. With Neff, McKim and Segedi added to these there should be quite a few points for Ellwood in the weight events. Coach Lloyd lacks a real broad jumper and high jumper. Segedi and Kwolek will do the pole vaulting in which they have been showing fine form lately.

One of the most interesting events of the program will be the special one mile relay for Beaver valley schools in which Ellwood is included. This promises to be a real race.

The trials are scheduled to open at 11 a. m. and the finals for 1:30 p. m.

Council Considers Installing Police Signal System Here

Company Representative Explains Wonderful Apparatus To Councilmen Last Night

ELLWOOD CITY, May 6. — An unusual apparatus that is proving a success in the big cities as a police signal system gained the attention of the borough council of Ellwood City at their regular meeting last night.

W. B. Barber, representative of the concern from Pittsburgh was present at this time to explain to council how this apparatus works and how it may be obtained.

This system uses several standard police boxes and a type of desk that receives the messages. A system of lights is also used with this plan. When a call comes in from one of the police boxes, the exact time and place is immediately registered at headquarters. To place an emergency call, all a policeman would have to do it to turn a key half way in the telephone box. There is a mechanism in this apparatus that cuts out all noises upon pressing a button, so that voice over the wires may be more distinct.

Cities that use this system assert that their police work is 25 per cent more efficient. The life of this equipment averages at least 25 years and is really more economical than the present phone system. Re-wiring would only have to be done only about once in 10 years.

The borough was offered a proposition to have the company install the system here, entirely at their own expense. This then would be leased to the city for a certain fee which at the end of 10 years would pay for the system and it would be turned over to the city as their property. It could be really payed up anytime before this.

This proposition was left to the police committee for their serious consideration and a report later.

Playgrounds Will Open Again Here

Borough Council Increases Appropriation To $1,700 At Meeting Thursday

ELLWOOD CITY, May 6—After a serious discussion following the recommendation of the Police and Rules and Regulations Committees the borough council by a 6-2 vote set the appropriation for playground work this summer at $1,700, a decrease from last year.

This is the minimum amount that four playgrounds can be satisfactorily operated the committees stated in the recommendations. Council in preparing their budget so that a decerase in the tax millage could be made, previously made the appropriation $1075 for the operation of four playgrounds.

The Playground Commission, through their secretary R. G. Forbes outlined the playground situation for the benefit of council. After Mr. Forbes' remarks council referred the matter to the above committees for a recommendation which were presented last night.

Two of the councilmen were not in favor of the increased appropriation recommended by the committee, because of the great amount of relief work that must be done here this summer, they stated. They preferred that this sum be turned over to relief committees. They made the impression that they were not in favor of opening the playgrounds this year, but rather pay more attention to relief work.

Burgess Turner pointed out that most of the present playground equipment was donated by the National Tube Company and J. J. Dunn and the only expense that council had for a while was the paying of salaries. He stated that he wished that council would go on record as in favor of the playgrounds and grant the necessary appropriation, so that the good work of Mr. Dunn can be carried on. He was also in the opinion that the playground situation was really a matter for the school board.

Hugh Maxwell's team gradually decreased their lead until the closing inning when it seemed that the score was going to be deadlocked. The Catholics rallied to prevent the final run and won the game.
